Unseen Tire Value

Most of the things you buy show something of their character in their outward appearance. But when you buy tires you must either trust to luck or base your decision on the reputation of the maker and the known record of his product.

Firestone Tires are built with the conviction that sooner or later the inner, unseen quality must come to the surface. That's why

INTRODUCTORY

We present herewith our 36th annual edition of the **Akron City Directory** with the assurance that it will be found reasonably complete and real evidence of the care exercised in its preparation. The fact that Akron is growing rapidly is no secret, not a boom growth but a real substantial growth along all lines tending toward a big live business and residential city and there is no better evidence of this fact than that shown by the **City Directory**. Last year a careful count of the names contained in the Directory showed a total of 49,322 individuals; a similar count this year shows an increase of 3780 names or a total of 53,102 individuals. Using a conservative multiple, two (2), to represent married women and children indicates a present total population of 106,204.

We desire to thank our patrons and the public for the courtesies extended our representatives while gathering data and soliciting patronage for this volume.

Respectfully,

THE BURCH DIRECTORY CO
