Facts About Directory Advertising

It Is the Only

Advertising that is not hit or miss from the fact that it can always be found when wanted

It Is the Only

Advertising medium that has no competition and is used by practically the whole community and is not used for kindling purposes a short time after issued--nor is it read once and thrown away

It Is the Only

Advertising which is on the job 365 day in a year and in many establishments 24 hours a day

It Is the Only

Advertising medium where you can advertise your goods with absolute certainty that the public can find the information when desired

It Is the Only

Advertising medium where you would look and expect to find what you want when you want it

It Is the Only

Advertising medium that represents every business house in the City and to omit your sign therefrom is neglecting to place your sign in front of your place of business

There Is no Advertising to Compare With
Cost and Service Considered

A WONDERFUL NEW TIRE

For years we have built good tires. Amazon users have considered them the best tires made. But we were not satisfied.

Careful laboratory tests were made. The country's leading rubber engineers were consulted. Thousands of dollars were spent in developing a new and greater tire.

For more than a year these new tires have been given the harshest road tests used in jitney service on speed wagons over the worst roads in the country. **AND THEY HAVE IN EVERY WAY COME UP TO OUR HIGHEST EXPECTATIONS.**

They Keep All Promises

A Heaping Measure of Miles

A tire is a package of service miles. It contains no standard number. Not even an expert can tell by examining the outside how many miles there are inside. Secrets, strange sounding materials and methods actually play small parts in determining the number. It's a question of materials, workmanship and sincerity of purpose on the part of the manufacturer.

So it pays to know the principles your tire manufacturer stands for.

The policy of the Mohawk Rubber Company since its inception seven years ago has been to invariably give its customers a HEAPING MEASURE OF MILES.

Surprising Excess Mileage

Mohawk Quality Tires have won the remarkable reputation for high mileage that they today have throughout the country not because they give guaranteed mileage, most tires do that, but because of the surprising excess mileage.

This excess mileage has been the result of the sincere effort which we have held to from the outset to not alone give our customers mileage that will satisfy them but to give them a mileage that will surprise them. In short, to give them the greatest possible value that a combination of the finest materials in the world, the most expert workmanship and our unusual knowledge and experience in the tire business can produce.

Mohawk Quality Tires are Made in Cord and Fabric Types and in a Full Line of Truck Sizes

The Real Meaning of "Best in the Long Run"

BEST IN THE LONG RUN is a slogan that is almost as old as the history of tires. It grew out of the performance of Goodrich Tires on bicycles and it grew into the *dependability* of Goodrich rubber products of all kinds.

It is not just a catch phrase. It is a plain statement of fact.

It is really a mirroring of the confidence placed in Goodrich products by their users. In five words it crystallizes the

ideals, the policies, the principles of Goodrich.

It means the long run of good faith and good will—the steady building up of a confidence in the minds of the users, *which is the greatest asset a manufacturer can have.*

That is how Goodrich translates this slogan into terms of longest average wear, utmost dependability and known quality in all kinds of rubber products.

Akron and Summit County During the Last Decade

The Federal Census figures for Akron, Summit County and Summit County communities issued early in the year, showed that the highest estimates of the size of the communities was too small and that the growth of the city and county during the past ten years was larger than was predicted.

Akron's population, according to the U S census, is 208,435, an increase of 201 8 per cent over the 1910 population of 60,067 This places Akron as the thirty-second city in the United States on a population basis, and the fifth city in the state of Ohio

Its population growth during the past ten years has been greater than any city over 100,000 in the United States.

Summit County has a population of 286,065 which shows an increase of 164 3 per cent over the 1910 population of 108,253 and is the only county in the state which has four communities of 10,000 population

Barberton, Cuyahoga Falls and Kenmore also showed phenominal increases in population during the past decade

Barberton now has a population of 18,811 inhabitants, which is an increase of 199 9 per cent over the population in 1910.

Cuyahoga Falls increased 153 7 per cent so that its present population is given by the Census Bureau as 10,200

Kenmore showed the most phenominal growth in the country, leaping from a village in 1910 to a population of 12,683, an increase of 712 5 per cent in the ten years.

Ohio is now the only state which has five cities over 200,000, and it is equalled only by Massachusetts in having seven cities over 100,000

The area of Akron during the decade has increased from 11 48 square miles to 23 8 square miles

Post office receipts in 1910 amounted to \$315,422 while during the first 10 months of the present year, they aggregated \$989,294

Bank clearings in 1910 were \$48,600,000, as compared with \$494,462,000 cleared through Akron banks during the first 10 months of this year.

In 1911, 1,865 building permits calling for \$3,654,696 worth of building, were taken out in the city, while during the first ten months of this year, 394 permits calling for an investment of \$19,958,049 were issued.

In 1910, \$393,861 was expended for education in the public schools. This year the Board of Education will expend very nearly \$3,000,000

These figures for the past ten months indicate that the business depression which was general throughout the country this year did not come to Akron in time to seriously affect the annual figures on business and commerce—*We are indebted to Mr Vincent S Stevens, Secretary Akron Chamber of Commerce, for the foregoing facts and figures*

Owing to the rapid growth and increased number of names, we have used smaller type and the ditto system in family names in this issue This is done to reduce the size of the Directory and enable us to make the binding stronger and to facilitate its use generally. Since the Federal Census has announced Akron's present population, we will not venture into the matter, except to say this issue (Akron alphabetical list) contains, actual count, 117,262 individual names, an increase of 21,618 over the 1919 edition.

Respectfully,
THE BURCH DIRECTORY CO

The Letter That Delivers the Message is the Most Efficient Means of Direct Advertising

Fully 75 per cent of the facsimile letters sent through the mails are not read, yet the postage and stationery on the unread letter costs as much as on the letter that delivers the message. "A letter to be effective must be read. The recipient of a HOOVEN letter will read it."

POSTAGE RATES

Domestic Matter—First class, letters and all written or sealed matter two cents per ounce or fraction thereof. Postal cards one cent. Second class, entered newspapers and magazines, one cent for four ounces or fraction thereof. Third-class, books, photographs and printed matter generally, one cent for each two ounces or fraction thereof. Parcel Post includes Books and all Merchandise with rates according to zone. All Parcel Post matter should be brought to Postoffice or Stations.

Registry Fee—Ten (10) cents.

To insure proper rating of doubtful mail matter, it should be brought to the Postoffice.

Foreign Rates—Postal Union Countries only. Letters and all sealed matter, five cents for first ounce or fraction thereof and three cents for each additional ounce (except in England, Ireland, Scotland and Wales, and Germany [if by boat direct] where the rate is two cents same as domestic). Newspapers, periodicals and photographs, unsealed, one cent for each two ounces or fraction thereof.

Advise your correspondents of your street address, and request that they so direct your mail. This insures prompt delivery and prevents mistakes.

By placing your name and address on the upper left-hand corner of the envelope you will receive the letter back if it is not delivered.

Report all irregularities in the handling of your mail to the Postoffice.

Postoffice open for dispatch of mail day and night.

Main Office East Market cor High St.

K. P. ALDRICH, P. O. Inspector in Charge

Akron's Great Tire

The Talk of the Tire Town

Everybody in Akron knows General Tires. They know that what you get out of them has crowned them—Akron's great tire.

Taxi drivers there will tell you how many miles their General Cords have made—show them to you—brag about them. And almost everybody who isn't under obligation to some other tire factory uses General Tires—because they know the men who make them, the materials that go into them and the miles that you can get out of them.

*Buy the Tire that's the Talk of the
Tire Town*

Get a General today—and let it roll
alongside of any other tire in the world.
It will repay you in extra mileage—
longer service—more satisfaction.

THE **GENERAL**
CORD TIRE

*—goes a long way
to make friends*

*Built in Akron,
Ohio, by
The General Tire
and Rubber Co.*

Pasteurizing Has a Meaning

IT INSURES THE HEALTHFULNESS OF YOUR MILK
AND UNLESS PROPERLY DONE IS VALUELESS.

This daily recording thermometer record shows the time and temperature at which our milk was pasteurized.

It insures you that the milk is PASTEURIZED, that is, HEATED TO 140 DEGREES AND HELD 30 MINUTES.

BY THE USE OF THIS RECORDING THERMOMETER THE PASTEURIZATION OF MILK CAN BE PROVED TO THE SATISFACTION OF THE PUBLIC AND THE INSPECTION OFFICIALS.

Painters' Supplies, THE D-P-W CO. 73 EAST MILL ST.

ADD-A-ROOM

WITH THE

Bessler Movable Stairway

MADE IN AKRON

Eliminate that garret stairway and put that upper hall space into use. It can easily be done, with a saving in lumber and labor, by installing a Bessler. Simplicity itself to operate and install, neat in appearance and strongly built. A practical and satisfactory modern space-saver. You will be interested in our catalog and price list. Write today for them.

**Takes up no space
in floor below**

**Costs less than a
stationary
stairway**

**So simple and
easy that a child
can operate it**

**Never in the way
when not in use**

**Folds up into the
ceiling**
