"THE DIAMOND LIGHT" LAMPS AND LANTERNS

The Diamond Light is manufactured in many designs to meet varying needs. Burns gasoline or kerosene. These wonderful lamps operate on less than half the fuel required for one ordinary wick lamp and give almost 100 times more light. Brighter and cheaper than electricity or gas. Give a soft, white 300 candle-power light, easy on the eyes and beautifully brilliant for the home. Absolutely safe, as there is no danger even if upset. Easy and simple to operate, and needs practically no attention except occasional filling—no wicks to trim, no chimneys to clean. They are smokeless and odorless. Unexcelled for Farm Homes, Cottages, Etc.

Foreword

We take pride in presenting the 47th volume of the Akron City Directory with the assurance that it will prove of real value and service to all who have occasion to consult its interesting pages

This issue shows a material gain in business enterprises and population since our last edition, which is conclusive evidence that Akron has recovered from the recent slump and even in a more healthy, substantial condition than heretofore. Confidence has been restored and from all indications the city will continue to grow and prosper

In complying with the general standardization plan adopted by members of the Association, of North American Directory Publishers, we have made a division of the five essential features in this issue, as follows

The Miscellaneous section occupies pages 11 to 25 inclusive

The Business and Professional Classified Advertising department, printed on special tinted paper, appears on pages 27 to 276 inclusive

The Alphabetical list of names (Akron section) will be found on pages 277 to 1065 inclusive

The Akron Street and Householders Directory, printed on special pink paper, occupy pages 1069 to 1326 inclusive. Having changed the position of this section, we find it advisable to use the pink paper to make it easily distinguished from other sections

In this last group appears the Classified Business Directory for Akron, Kenmore and Cuyahoga Falls, on pages 1327 to 1398 inclusive. The Barberton Classified Business Directory will be found immediately following the Barberton Alphabetical list

For a more complete list of contents, see the general index

For the benefit of those seeking information hurriedly, allow us to suggest that they exercise *more* thought and care, first, be sure of the spelling or particular information you desire; then turn to the proper department, make a diligent search and nine times out of ten your efforts will be rewarded

We are pleased to again call attention to our DIRECTORY LIBRARY, embracing the current issues of Directories of the leading cities of the United States and Canada. This library is maintained exclusively for the convenience of our patrons and the public and is absolutely FREE, just a part of our service

Owing to the general interest and varied opinions regarding Akron's present population, we incorporated in our canvass a complete census enumeration, or count of "noses," and as a result find a total population of TWO HUNDRED NINE THOUSAND, FIVE HUNDRED TWELVE (209,512)

The present population of Kenmore, Barberton and Cuyahoga Falls, based on a careful count of all individual names, and estimated on a multiple of 2, shows the following results: Kenmore, 14,278, Barberton, 21,370, Cuyahoga Falls, 14,552, indicating a substantial growth in each locality during the past year

We wish to express our appreciation and extend thanks to all who have contributed to our efforts in making this volume representative of the people and community it serves.

Business and Professional
Department
OF THE
AKRON CITY DIRECTORY
1926 - 27

The prime object of a City Directory is to *direct*. This department, however, is devoted especially to directing the Buyer to the Seller, in brief, a business lubricator. In a bustling, growing city like Akron the need for such convenient reference is very great, and the appreciation is evidenced by the wholesome list of business representations in the pages which follow.

We wish to call attention to our Directory Library, consisting of City Directories from all parts of the United States, and some of the more important Canadian Cities. These Directories are for the use of our Patrons and the public in general. This service is free.

of your home

Your verdict in the selection of a Heating Plant is, we believe, the most important decision you will make in choosing the equipment of your home.

Why?

Because it determines the health and comfort of your family. Ask our heating engineer to give you the benefit of his science. This places you under no obligation, and secures you the services of an expert.

NATIONAL ADVERTISERS

Are coming more and more to realize that newspaper or magazine publicity brings better returns when coupled up with an advertisement for the local agent in the city directory. Put "See the city directory for our local agent" on all your advertising and see to it that he is listed under all the classifications of your line.

LOCAL ADVERTISERS

Will improve their sales of nationally advertised products if they can induce their supply house to advertise in the above manner.

Pioneering Achievement

A consistent leader in the development of the balloon tire—the pioneer in its manufacture and marketing—Firestone assures trustworthy service, longer mileage and care-free motoring.

Gum-Dipping—the extra Firestone process which insulates every strand of cord and fabric with live rubber—minimizing internal friction—is one of the most important contributions to tire engineering.

After the Sale

IT is the customary thing in business to show the buyer careful attention before the sale.

It is the Goodyear desire to show him even more careful attention afterwards.

In other words, Goodyear policy has a double purpose:

First—to build the greatest possible value into the product; and second, to provide means enabling the user to get all this value out.

To accomplish the first part of this policy, Goodyear has withheld no effort that could improve the goodness of Goodyear Tires.

Today, as an example, by reason of the extra-elastic cord fabric SUPERTWIST, Goodyear SUPERTWIST Balloons are admittedly the finest tires it is possible to buy.

To accomplish the second part, Goodyear has built a world-wide dealer organization schooled in tire knowledge and tire care.

It has repeatedly urged the public, as it now urges you, to use this organization as a means of keeping tire costs down.

*More people ride on Goodyear
Tires than on any other kind*

THREE FEATURES

Three exclusive features which put INDIA products in a class by themselves are:

- 1—The INDIA Gum-Weld cushion which welds the tread and the carcass together more securely so that road shocks are distributed over a greater area.
- 2—The six-ply—four-ply Balloon tire, with six-ply at tread and four-ply at sidewall giving to INDIA Balloon tires the long wear and freedom from punctures of the best high-pressure tire.
- 3—The INDIA True-Blue (HEAT-PROOF) Inner Tube is the first successfully to overcome the disintegration (burning up) caused by friction of present high speeds and heavy loads.
