SPECIAL
CLASSIFIED
ADVERTISING DEPARTMENT
AND
BUYERS' GUIDE
OF THE
AKRON CITY DIRECTORY
1943

This section of the Directory contains the Advertisements and Professional cards of the more progressive business men, classified according to their respective line of business or profession. In brief, they are the men who are making business and history for Akron. Patronize them and you will be sure of a square deal.

We have on file in our Directory Library every issue of the Akron City Directory, beginning with the 1868 edition, down to the current issue. These volumes contain a wealth of information concerning the people who were listed in the Directory during the past 75 years.

Persons listed in the earlier Directories are now only memories, but their listings in the Directory remain the same as when they were here in person.

These rare volumes, as well as hundreds of current Directories of other cities, are available for public reference, without cost,—just a part of our service.

FOR SAGGING FLOORS

Sagging floors cause serious depreciation—the longer neglected the worse it gets. The new Adjusta Post is made of new heavy steel and has a lifting power of over 20 tons. The Adjusta-Post Co. is the only firm in Akron that provides a complete service in this line.

The easiest, safest and cheapest way to remedy sagging floors permanently.

Call HEmlock 7614 or BLackstone 3833 and our Representative will call without obligation.

Are coming more and more to realize that newspaper or magazine publicity brings better returns when coupled up with an advertisement for the local agent in the city directory. Put "See the city directory for our local agent" on all your advertising and see to it that he is listed under all the classifications of your line.

LOCAL ADVERTISERS

Will improve their sales of nationally advertised products if they can induce their supply house to advertise in the above manner.

 TIRES THAT *Breathe* LIVE LONGER

Seiberling Heat Vented Tires exhale rubber-destroying heat and inhale cooler air with every turn of the wheel. Because they "breathe" they run cooler—last longer. In the Armed Forces and on thousands of essential trucks, buses and passenger cars, Seiberling Heat Vented Tires are saving rubber for Victory. After Victory, they'll save mileage for you.

NATIONAL ADVERTISERS

Are coming more and more to realize that newspaper or magazine publicity
 brings better returns when coupled up with an advertisement for the local
 agent in the city directory. Put "See the city directory for our local agent"
 on all your advertising and see to it that he is listed under all the classifica-
 tions of your line.

LOCAL ADVERTISERS

Will improve their sales of nationally advertised products if they can induce
 their supply house to advertise in the above manner

SOMETHING

To Think About

For the Advertiser and the Consumer

DO YOU REALIZE that an Advertisement in the City Directory is a Testimonial to the Permanency and Stability of the Advertiser?

A City Directory Advertiser is the logical one to patronize. This permanency and stability is your assurance of a square deal in buying merchandise or having work done.

"FLY-BY-NIGHT," "FIRE SALE," "GET-RICH-QUICK," and other temporary concerns, rarely appear, or advertise, in the City Directory.

It is a noteworthy fact that 90% of the City Directory Advertising is renewed from issue to issue.

There are dominant factors connected with City Directory Advertising: first, the low cost and staple publicity it affords, locally and nationally; second, this co-operation and patronage is wholly responsible for the very existence of the City Directory

The modern City Directory is a wonderful asset, credit and benefit to the community it represents. In turn, that which benefits the community, automatically benefits the Advertiser.

Judicious Advertising is always a good investment, and City Directory Advertising, cost considered, renders larger returns than any other medium. In connection with the complete Classified Business section, it is doubly effective

While we have offered you "Something to Think About," it is also Something Worth Remembering.

An Ideal Address . . . First-Central Tower

The 28-story First-Central Tower is the largest, newest, most up-to-date office building in Akron. This fact enables us to give tenants the utmost in comfort, convenience and service.

The building stands at Akron's busiest corner, where the most clients and customers are. An address in it is assurance that your location is universally known, and easily reached. And eight elevators take customers to you without delay.

All offices are light, airy and as commodious as desired. Those on the higher floors are free from the noises of the street, an advantage desired by many. For further information, please telephone, write or visit the Building Manager at Suite 400.

The City Directory

is the most effective and economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The *Classified Lists* in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want, when you want it.
