AKRON, OHIO:
TRIBUNE AND GERMANIA PRINTING HOUSE
PRELIMINARY.

In presenting to the public our third biennial Akron City Directory, we do so believing that it will be found as complete as it is possible to make a work of its kind. Notwithstanding the fact that omissions and errors may be discovered, we claim for the work an accuracy and neatness seldom exhibited in a City Directory. We have aimed to make our work a fit representative of the public spirit and importance of the city of Akron, and an accurate and complete guide to all public places, business locations, private residences of the inhabitants of the city, and a complete Post Office Directory of the State of Ohio. The Business Directory contains a classified list of all trades, professions and pursuits in the city, alphabetically arranged, thus exhibiting at a glance the special business of each citizen. The miscellaneous department contains much information useful to both citizen and stranger. Our Secret Society department will be found complete. As the architect, after long, anxious labor, views with satisfaction the completion of a pet task he has worked early and late to accomplish, and, amid the assembled crowd gathered to gaze upon the work of his genius, he stands waiting for something more—their approbation and applause—to him the test of his success; so the publishers of this volume, after long weeks of earnest endeavor to make a work satisfactory to themselves and acceptable to the public, now send it forth conscientiously completed on their part. Yet they await a larger judgment and appreciation of their efforts—the favor and approbation of their patrons. If this be granted, it will nerve them to make still greater trials, with renewed effort to still further please. While thanking the business community for the generous patronage given us, and the “Press” for their favorable notices, we desire to express our intention of issuing the Akron City Directory biennially, with the promise that it shall be as complete, as it is possible to make it.

AKRON

AKRON, a thriving, enterprising city of nineteen thousand inhabitants, is the capital of Summit County. It is built on the highest ground between Lake Erie and the Ohio River, being 495 feet above the Lake and 1,065 feet above the Atlantic Ocean.

When the city was laid out, in 1825, and awaiting a christening, Charles Olcott, who was a graduate of Yale College, and a Greek scholar, suggested the name Akron, which is a Greek word, signifying a peak, or summit, which was at once adopted.

The ground on which it stands was purchased from the Indians at a treaty held at Fort McIntosh, where Beaver, in Pennsylvania, now stands, in 1785, by which the Cuyahoga River, the Portage Path, and Tuscarawas River were fixed upon as the western boundary of the United States. This boundary was confirmed by the treaty of Fort Greenville in 1795.

The Portage Path, which is a short distance west of the western boundary of Akron, was thus fixed by treaty with the Indians, as the western boundary of the United States, and so remained until the treaty of Fort Industry, where Sandusky City now is, in 1805, when the Indians deeded their lands west of the Cuyahoga and Portage Path, to the United States. Thus, for twenty years, the ground on which Akron stands, was the extreme limit of the United States, separated from hostile tribes of Indians of unknown numbers, with a territory extending to the Pacific Ocean, by an Indian trail only.

The Path is of historic interest, as it was the greatest highway of nations for unknown centuries before America was known to the civilized world. This Path commenced at the head of canoe navigation on the Cuyahoga, at what is called Old Portage, and then followed the high lands, or ridges, to the head waters of canoe navigation on the Tuscarawas, at New Portage, a distance of about nine miles.

Akron was situated in Portage township, originally, though it now embraces parts of Tallmadge, Springfield and Coventry Townships.
The first settlers in Portage Township, within what is now Akron, were Major Miner Spicer, Amos Spicer, Paul and Barnabas Williams. Major Spicer came from Groton, New London County, Conn., in 1810, and located his land about half way between the original limits of Akron and what was then Middlebury, (now the 6th ward of Akron,) in what is now the fourth ward.

In 1811 Major Spicer, Amos Spicer, Paul Williams and Barnabas Williams moved into the township—Major Spicer on to the land he selected the year before; and Paul and Barnabas Williams located a little west, on what is now East Exchange street in Akron, a little west of Buchtel College.

The first settler in what is now Akron, but was then a part of Tallmadge township, was Captain Joseph Hart, who was born in Wallingford, Connecticut, and bred a sailor. He followed a seafaring life—sailing from New Haven—and he became Captain of a ship. In 1799 he was captured by a French cruiser, and, with his ship and crew, taken to France. On his liberation and return to the United States, he quit the Ocean, and removed to Ohio. In 1807 he purchased 54 acres of land that now constitutes a considerable portion of the Sixth Ward of Akron. On the 6th of August, 1808, Eliza Hart, a daughter of Joseph Hart, and now the widow of Roswell Kent, was born, being the first white child born in what is now Akron.

In 1818, what is now the Sixth Ward of Akron was laid out into a village, called Middlebury. For a while it seemed destined to become one of the leading villages of the Reserve. In October, 1825, a newspaper was started here called The Portage Journal. As Akron had "no local habitation nor a name," nor even an existence, Middlebury was the resort of the enterprising business men, who were bidders and contractors on the Ohio canal. So great was the business at that time that there were no less than sixteen stores, including groceries, in the village. Mills, factories, and mechanical shops sprung into existence as if by magic.

In September, 1825, ground was broken for the Ohio canal, a little north of what is now Lock 1, in Akron, it having been broken at Licking Summit on the 4th of July previously.

Immediately, on the location of the canal, Gen. Simon Perkins and Paul Williams laid out Akron, and platted it and recorded it as a village. In what was then the recorded plat, there were but two families—Paul and Barnabas Williams. In 1832, there were 600 inhabitants; in 1840 there were 1632; in 1870 there were 10,253; in 1875 there were 17,000; in 1879 there were 19,000.

In 1827, Akron had become a "Port," and Woolsey Wells, Attorney at Law, Justice of the Peace, and Post Master, was appointed Collector of the Port of Akron. On the 4th of July, 1827,
the first canal boat cleared from Akron to Cleveland, causing great rejoicing as it moved off at the rate of three miles an hour through the Portage and Northampton hills.

Akron is celebrated for her mechanical enterprise. To enumerate her manufactories would require far more room than we have to spare. With her five flouring mills, each of which can turn out 300 barrels of the best flour a day, her Oatmeal and Pearl Barley Mills, the most extensive in the United States; her Reaper and Mower and Knife Works and her machine shops, that give employment to over 1000 men; her Forge, Rolling Mill, and Foundries; her Sewer Pipe, Stoneware, Diamond Fire Brick, and Tile works; her Paper Mills, Match Factory, Rubber Works, and other mechanical establishments, that it would require a volume to enumerate; her immense water power, and the aid of the Cleveland, Mt. Vernon & Columbus and the Atlantic & Great Western Railroads, that pass through and cross each other in this city, and the Valley Railway, connecting us with the city of Cleveland upon the North, and the richest mineral region of Ohio upon the South; with the wealth and enterprise of her citizens, and her unexampled increase of population, Akron has a bright future. But her crowning glory is her educational and literary history. Between twenty and thirty papers have been published in this city. The first was "The Akron Weekly Post," by Madison H. White, the first number of which was issued March 19, 1836. "Akron Journal," by C. Bryan; "The New Era," by Jonathan F. Fenn; "The American Balance," by Smith & Galloway; "The Buzzard," by Jedediah Brownbread; "Glad Tidings," by Whitney, Davis & Doolittle; "The Flower of the West," by Allison & Rumrix; "The Pestalozzian," by S. L. Sawtell; "The Cascade Roarer," by S. A. Lane; "Summit Beacon," by H. Bowen; "The Flail," by L. L. Howard; "The American Democrat," by H. Canfield; "The Casket;" "Free Soil Platform;" "Akron Eagle;" "Free Democrat;" "True Kindred;" "Akron Offering;" "Free Democratic Standard;" "The Scockdolager;" "The Whip;" "The School Mistress;" "The Akron City Times;" "The Germania;" "The Argus," "Sunday Herald," "Sunday Gazette" and the "Tribune."—the present publications of the city being "The Akron Daily Beacon" and "The Summit County Beacon," (weekly), by the Beacon Publishing Company; "The Akron Tribune," (daily and weekly) "The Sunday Gazette," and "The Akron Germania," (weekly) by Werner & Nelson, the "Akron City Times," (weekly) by R. H. Knight, and the "Akron Commercial," (monthly) by Josia J. Wright.

But the crowning glory of her educational history is that here originated "The Akron School Law," and by the munificence of
John R. Buchtel, and others, is here erected and endowed “Buchtel College”—an honor to the city, and a lasting monument of the liberality of its founders.

By the fires of June and September, 1848, December, 1849, February, 1851, December, 1854, and April, 1855, the business part of ancient Akron was laid in ruins, but, like the Phoenix, she has as often arisen from the ashes, re-invigorated, re-juvenated, and beautified. Modern Akron has also suffered severely from the ravages of the fire-fiend, by the fires of December, 1856, March, 1857, March, 1869, April, 1872, and June, 1878, interspersed with numerous “lesser lights” from time to time. But from all these calamities, involving an aggregate loss of over a million of dollars, her recovery has always been rapid and thorough, and to-day she has no superior in the beauty of her business structures and public and private buildings, or the enterprise and prosperity of her inhabitants.

This New Model **BUCKEYE MOWER** is the Strongest, Neatest and Best Light Mower made. It has all the good qualities which have made the Buckeye for twenty years the Farmers' Favorite. It has a Tilting Lever, to raise and lower the points of the guards. Has a Wrought-Iron Steel-Faced Guard, and a Three-inch Cutting Section, and the best Knives money can make. It has no Side Draft and no weight on the horses' necks. It is all Iron and Steel, except the Tongue; runs very light and does the best of work. It is especially adapted for rough and boggy ground. It is a Front-Cut, and therefore perfectly safe for the Driver.

MANUFACTURED BY

**AULTMAN, MILLER & CO.**

**AKRON, OHIO.**
We Manufacture also the BUCKEYE SELF-BINDING HARVESTER.

THE

NEW BUCKEYE TABLE RAKE.

With the Old Reliable Buckeye Mower, the most successful Combined Machine in the market. Unequaled for Durability, Lightness of Draft, Ease of Management, Perfection of work, Safety and Comfort of the Driver. Takes up the worst Lodged Grain clean, and in Standing Grain will do more work with four Binders than any other Machine can with five. CALL AND SEE IT.

The Self-Acting Adjustable Swing.

Thousands in use and no Accidents.

CHAS. E. SNIDER,
PROPRIETOR AND SOLE MANUFACTURER,
AKRON, OHIO.

No Swing Manufactured that will compare with it.
THE

IMPROVED SELF-OPERATING SWINGS,

ONE OF THE GREATEST INVENTIONS OF MAN'S INGENUITY EVER PRESENTED, FOR USE AND ENJOYMENT.

They are made entirely of First Class Material,
are substantially put together, with metal fastenings, making them strong and durable.

They are suspended by Flexible Hangings,
which can be adjusted so as to place the swing in any position or height desired.

The Hangings are Attached to the Swing
by a LOCK RAP, by means of which the swing can be taken down or put up in a few moments.

They are operated by a slight pressure of the
Feet upon the foot-rest, which gives motion to the swing; and when once in motion, no little exertion is required to operate it, so that any person can swing for hours without becoming fatigued.

The back and foot rests operate under
the seat, in form of a Hinge, so that the operation is as easy as sitting in a rocking chair.

OUR UPHOLSTERED SWINGS
are greatly admired by every one, and are pronounced by all to be the Handsomest Swing in the market.

The Back and Seat Boards are made of
BLACK WALNUT, which are finely upholstered, with the best of English Plush, the Yarns are Fin. Placed, which gives them the appearance of Silver.

They are Suspended with Patent Rein Webbing,
Spring and Sash, and of which we are having a superior quality manufactured for

OUR BLACK WALNUT SWINGS
are very attractive, and ornamental to any place; it is the choice of the people for a Porch Swing. The arms are Fin. Placed; back and seat boards of Black Walnut, and are finely finished. They are hung with webbing.

OUR LAWN SWINGS

Are mostly used, and well adapted for all outdoor locations; although large numbers are on them for porch and play room Swings. Backs and seats are painted; the frames are enamelled, and they are hung with the best Manila Rope or Webbing. They present a very fine appearance.

I manufacture two sizes and finish them in three styles, making an assortment of six Swings. No. 1. Swings are made expressly for Children and are but 13 inches wide.

No. 2. Swings are made for Children and Grown Persons, they have a long foot-rest with an extra cross-bar (foot-rests) for Children, they are 18 inches wide.

The Swings are easily attached to any frame or ceiling.

Swinging is an amusement eagerly sought after and greatly enjoyed by Children of all ages and nothing that was ever devised or contrived for the use and amusement of Children so completely accomplishes its purpose as this Swing.

I can produce Testimonials from almost any part of the country attesting its perfect safety, ease in operation, durability, neatness and cheapness.

CINCINNATI, Ohio, June 12th, 1879.

MR. CHAS. E. SNIDER.

Dear Sir,—I have had one of your Self-Operating Swings in use at my house for some time, and I am perfectly satisfied with it, can cheerfully recommend it to those who are desirous of adding to the pleasure and comforts of home life.

Very truly yours,

HENRY OSKAMP,
Jeweler.
MR. CHAS. E. SNIDER,

Dear Sir,—I wish to express to you my entire satisfaction with the patent Swing I purchased from you last summer, and can recommend it for its ease, its neatness, its durability, and the facility with which it can be put in motion.

Yours truly,

A. B. GALBRAETH, M. D.

PONTIAC, Mich., June 16th, 1879.

MR. CHAS. E. SNIDER,

FORT WAYNE, Ind., June 10th, 1879.

The Swings we bought of you last fall have given universal satisfaction. This Spring the excitement over them ran high, they are safe, durable, easily worked by the occupant, and are so cheap that almost every one can afford to have one.

Yours truly,

MORGAN & BEACH.

AKRON, O., June 30th, 1879.

I take pleasure in adding my testimony to that of many others, as to the durability, elegance, and general excellence of the adjustable, self-operating Swing, manufactured by Chas. E. Snider, Akron, Ohio.

When proprietor of the Summer Resort, Mountain View House, Academia, Juniata Co., Pa., I had three of these Swings in operation, they gave complete satisfaction, and were admired and liked by all the guests. I heartily recommend them to all who are in search of a cheap, durable and elegant Swing.

CARL F. KOLBE.

SILVER LAKE GROVE, O., June 1st, 1879.

MR. CHAS. E. SNIDER,

Dear Sir,—Two years ago I purchased one of your Patent, Self-Acting Swings for the Grove, and after thoroughly testing its merits, have just added five more; being satisfied that I cannot afford to be without them.

Yours truly,

R. W. LODGE.

CUYAHOGA FALLS, O., June 5th, 1879.

MR. CHAS. E. SNIDER,

Dear Sir,—The Swings I bought of you and placed in my Grove, give entire satisfaction, everybody speaks in praise of them, and I heartily recommend them as being neat, and durable, easily operated and a safe Swing for Children.

I would not be without them if they were to cost me twice the amount paid for them.

Truly yours,

WM. A. SMITH, Prop'r. Gaylord's Grove.

Young Men and Ladies

The acknowledged revival of business, and the assured dawn of better times is certain to make a largely increased and constantly increasing demand for young people

TRAINED FOR BUSINESS

When a Merchant wants a Bookkeeper or a Manufacturer an Invoice or Shipping Clerk, he will not wait six months for you to fit yourself to take the position. The young man or young woman who is ready steps into it.

At the AKRON BUSINESS COLLEGE

You can pursue any one of the following studies or all of them:

BOOKKEEPING,

PENMANSHIP, DETECTION OF

ARITHMETIC, COUNTERFEIT

COMMERCIAL LAW, MONEY,

BUSINESS FORMS, RAPID CAL-

BUSINESS COR-

CULATIONS,

RESPONDENCE, GRAMMAR,

Political Economy, English Branches, Phonography,

LANGUAGES, &C., &C., &C.

An opportunity is given to pursue these subjects

IN DAY OR EVENING SESSIONS

We teach each subject with reference to its practical uses. Aware that each branch of study may be regarded as a science as well as an art, we bear in mind that it is an art that we are chiefly concerned with it, and that time is money to most of our Students, we therefore aim to prepare our students

In the SHORTEST POSSIBLE TIME

For the employment they wish to enter upon. Each student is taught separately in most studies and is hence neither driven too fast for the mastery of a subject or held back to keep pace with slower students, nor is he embarrassed by his slowness if he cannot at the beginning make rapid progress in a study.

TERMS REASONABLE. For further particulars call at our Rooms, or

ADDRESS

O. S. WARNER, A. M.,

P. O. Drawer 410. PROPRIETOR.
Farmers, Gardeners, EVERYBODY,

Whether you plant a single paper of Seeds or many bushels, you cannot afford to invest in the commissioned seeds which flood the country and which are left with every drug, grocery or other store where they will accept them. These seeds are gathered up at the end of each season and sent out again and again, year after year, in the same papers if presentable, otherwise they are cut out, mixed with a little new, repapered and sent out again. It will pay you to

Buy your Seeds, Garden, Flower & Field
At the AKRON SEED STORE.

The greater part of the commissioned seeds are of venerable old age, generally badly mixed, and grown from any kind of stocks.

The Seeds we offer are

Fresh, Unmixed, True to Name, and of the Finest Quality,

and are our own growth or purchased from growers, importers and dealers who furnish the finest quality that can be obtained and who never send out any seed to be sold on commission. During the past two years we have kept open only from March to Sept. On the 1st of April, 1880, we hope to find permanent quarters, and furnish not only Seeds but also a full assortment of

Vegetable and Bedding Plants, and Bulbs for Spring and Fall planting,

in their Season. We propose also to make a further addition to our business during the Spring of 1880, by furnishing, as soon as they can be grown in this vicinity, from our own garden and from those of the best gardeners near us,

Fresh Fruits, Vegetables and Melons,

and thus be warranted in keeping our Store open “all the year round.” In short, we mean that

At the Akron Seed, Plant & Fruit Store,

the citizens of Akron and vicinity shall be able to find or have promptly furnished to order everything in the line of Seeds, Plants and Home Grown Vegetables and Fruits, that are to be found in a well appointed Seed Store, or can be raised in North Eastern Ohio. The location fixed upon will be extensively advertised in the Spring of 1880.

BUSINESS DIRECTORY.

1879-80.

Cuyahoga Falls, Summit County, Ohio, has a population of 2,500, is situated on the Cleveland, Mt. Vernon and Columbus R. R., 34 miles from Cleveland, and 5 miles north of Akron, the county seat. The village officers are W. A. Hanford, mayor; S. D. Tiff, corporation clerk; Richard Reid, marshal; J. F. Weidner, Joseph Jones, C. Kittelberger, Ed. Inskeep, Charles Hunt and Ephraim Blood, common council.

The village is becoming a favorite resort for pleasure seekers—during the month of August last the average of daily excursionists was over 500.

The village is over 400 feet above Lake Erie; the town is underlaid with sand rock, from which springs and wells give abundant supply of soft water of the purest quality. Three churches, have each excellent places of worship. A school house, costing over $40,000, is completed.

This place offers the best situations for manufacturing or residence in Northern Ohio. Its elevated situation—with an undulating surface of ground—gives perfect drainage, and renders the location remarkably free from miasmata.
Silver Lake, a spring of pure water covering over 100 acres, has been improved, and is well known as a delightful place of resort, one mile northeast of the village.

The High Bridge Glens, opened in 1879, is a very popular and attractive resort.

Big Falls, three-fourths of a mile southwest of the town, is a wild, romantic spot in a rocky gorge, and is annually visited by thousands. The river for two miles northeast of town furnishes a splendid boating field. The Western Reserve College, at Hudson, and Buchtel College, at Akron, are accessible by railway for scholars who desire to reside here.

It supports a first-class newspaper, the Reporter, E. O. Knox, publisher and proprietor.

**A BEAUTIFUL SUMMER RESORT.**

**HIGH BRIDGE GLENs AND CAVES,**

**CUYAHOGA FALLS, O.**

The town of Cuyahoga Falls has in the last few years become quite noted as a Summer Resort, and is annually visited by thousands of people. It is situated in Summit County, O. and on the beautiful river Cuyahoga, from which, owing to its numerous falls and cascades at this point, the place is named; 36 miles South of Cleveland; 150 miles North of Columbus, and four miles from Akron, the County Seat; a large and flourishing city, is easily accessible by four daily express trains, on the Cleveland, Mount Vernon and Columbus Railroad.

Passing south through the main street, a walk of a quarter of a mile, brings one to a bridge which spans a narrow gorge in the river, 100 feet above its bed. Here has been provided a rude stairway which leads down, to a broad plateau, where has been erected an ample building with a spacious dining room and kitchen attached, where dinner parties can be served on short notice; here too, under the same roof, is a well furnished restaurant, where Ice Cream, Nuts, Candies, Cigars and everything in the Refreshment line, can be found; while just outside is a huge forest and numerous rustic seats, over-shadowed by high perpendicular rocks. Stepping down a few steps is Lover’s Retreat, a broad ledge of rocks, shaded by large forest trees. Quitting these ledges, and passing down another flight of stairs, we are in the heart of the Cuyahoga Falls, a large subterranean cavity, in the solid rock 35 x 51 feet in dimension; here and there are all kinds of rude seats, some of iron, others of wood, where the weary from climbing can rest. Water, pure and cold as ice, comes gushing from the rocks so that all who will may drink. Leaving the cave we pass down a strongly braced stairway, running diagonally with the face of the wall to Observation Rock, a huge stone of over 100 tons weight, from which, as one casts an eye up the stream, we get a fine view of the Water Falls, of heights varying from 15 to 20 feet, also High Bridge, some 80 feet above. Below and immediately under Fern Cave is Dove’s Retreat, a huge cavern with roof overhanging 25 feet above; to the right and a little down the rapids is Suspension Bridge, built above high water mark, of strong rods of iron reaching across the chasm and bedded firmly in huge boulders on each side, strong hand rails make all feel safe from the surging and foaming waters below. Departing from the Bridge, we are now on the east side and near Cascade Point, a lovely retreat, reached by a path of rocks and boulders, under Weeping Cliff, gray walls rising tier upon tier far above, the top of which are fringed with overhanging hemlock and birch. Just here, at the base of the wall, a basin has been cut in solid rock, and a large spring of Cold Mineral Water comes pouring out in torrents. Climbing up and around an enormous mound, we gain presently a broad avenue of a mile in length called the Grand Promenade, hedged in on one side by lofty overhanging rocks and gushing Springs of pure water, and on the other by many shade trees and the winding river, where the sunlight has to struggle to get in, which makes it a cool retreat. Swings and Croquet here abound.

Other and many attractions ought to be mentioned, but space forbids. The proprietors have been to quite an expense in fitting up and putting in shape this delightful place of resort, and new and varied attractions will be added every day, the design being to make it, as it is fast becoming, the most popular resort in the section of the State. Special arrangements for large parties and picnics can be made by letter or personal application to the proprietors.

Persons contemplating Sabbath School or Society Excursions are respectfully invited to examine the grounds before deciding to go elsewhere. In this connection we would say that the trains will stop within five rods of entrance to the grounds.

It is the only roof that has successfully stood the wear on tenement houses. The tiles or bricks make a roof that is as durable as the walls of the building, and one that will stand more hard usage from passage over, or piling lumber or rubbish upon than any roof heretofore used. It is absolutely fire proof from the outside, protecting the building from fire in adjoining buildings, and making insurance rates lower, as the following letter of the Superintendent of rates and surveys of the New York Board of Fire Underwriters will show.

On Apartment Houses it makes a healthy playground for the children and splendid promenade for Summer evenings. It is the Cheapest and Best Roof in the Market to-day.

NEW YORK BOARD OF FIRE UNDERWRITERS,
BUREAU OF SURVEYS,
117 Broadway, July 19, 1879

T. NEW, Esq., Dear Sir,—In reply to your enquiry, the following resolutions were passed by this committee, in relation to your specimens and circulars presented, viz. on May 26, 1874: "Roofs constructed of brick or tile laid on cement and with stone flashings, shall be classed same as roofs of IRON or COPPER." And on Jan. 7, 1879: The specimen of Roof Known as New's Patent Tile Roof was presented and approved (not chargeable), provided it is constructed in accordance with the Circular on file in this office," which is a fac simile of the above engraving. -
