"THE DIAMOND LIGHT"
Lamps, Lanterns and Light Plants

The Diamond Light is manufactured in many designs to meet varying needs. Burns gasoline or kerosene. These wonderful lamps operate on less than half the fuel required for an ordinary wick lamp and give almost 100 times more light. Brighter and cheaper than electricity or gas. Give a soft, white, 100 candle-power light, easy on the eyes and beautifully brilliant for the home. Absolutely safe as there is no danger even if upset. Easy and simple to operate, and need practically no attention except occasional filling—no wicks to trim, no chimneys to clean. They are smokeless and odorless. Unscented for Farm Houses, Cottages, etc.

For Prices and Demonstration call Bell Main 1038

The Universal Radiator Shield will positively keep walls, ceilings, draperies and furnishings clean by catching and retaining the dust and dirt circulated by the hot air rising from the radiators, and are made strong enough to be used for window seat or shelf.

Universal Shields are equipped with dust-retainers to catch and retain all dust and dirt circulated by the hot air rising from radiators. The shield flange extending from radiator to wall is provided with a felt strip, making a dust-tight joint.

Universal Shields are the “last word” in absolute protection from dirt to walls and draperies, and a positive assurance of saving the cost of shields each heating season. Made to fit any Steam, Vapor or Hot-Water Radiator.

We shall be pleased to show the superior qualities of Universal Radiator Shields.

END OF TIRE TROUBLE

A glance shows the Lambert "Trublpruf" Tire gives wonderful mileage. It is equal in wearing to a solid tire. It cannot puncture, blow out or rim cut.

Highly elastic rubber cushions between the base and tread make it as easy riding as a properly inflated cord or fabric tire. The Lambert wears longer, ends tire trouble and is satisfactory in every way. It is the cheapest tire per mile.

Call at the factory, Stop 98 Barberton car line, for a demonstration. Thousands of passenger cars and light trucks Lambert equipped.

DO NOTS

**Do Not**
put your Directory in an out-of-the-way place, but keep it where you can find it quick.

**Do Not**
think that a Directory is paying for itself unless you use it, any more than an idle dollar or clerk can make you money.

**Do Not**
get mad when a customer asks to look at your Directory.

**Do Not**
look happy when a neighbor wants to borrow your Directory, for if you do, he will borrow it again, and if all were borrowers, when would the next Directory be published?

**Do Not**
forget that an up-to-date city must have a Directory and a merchant that has no Directory is what?

**Do Not**
forget that a Directory borrower today will forget to return it tomorrow and you call him what?

**Do Not**
forget that the man who has a Directory pays for it and the borrower gets for nothing what another man pays for. What do you call him?

The Objects of the Association are as Follows:
FIRST. To improve the directory business by the interchange of ideas, and by the exchange of competent employees.
SECOND: To protect the public against fraudulent advertising schemes, operated under the name of directories, and to drive the promoters of such out of the business.
THIRD: To provide permanent and continuous employment for honest and faithful directory canvassers.
FOURTH. For the mutual advancement of the established and prospective interests of all who may become members of the association.

The Real Meaning of
"Best in the Long Run"

"BEST IN THE LONG RUN" is a slogan that is almost as old as the history of tires. It grew out of the performance of Goodrich Tires on bicycles, and it grew into the dependability of Goodrich rubber products of all kinds.

It is not just a catch phrase. It is a plain statement of fact.

It is really a mirroring of the confidence placed in Goodrich products by their users. In five words it crystallizes the ideals, the policies, the principles of Goodrich.

It means "the long run" of good faith and good will—the steady building up of a confidence in the minds of the users, which is the greatest asset a manufacturer can have.

That is how Goodrich translates this slogan into terms of longest average wear, utmost dependability and known quality in all kinds of rubber products.

AKRON, OHIO

Copyright, 1922, by The Burch Directory Co
AKRON, 1922

Akron has weathered the country's and the world's financial storm following the World War, in a manner that shows her industrial, commercial and banking strength, and every citizen should have renewed confidence in the future of our city. Its banks, its mercantile establishments are in excellent condition, and the wheels of its various industries are turning with accelerating speed.

Production of automobile tires during the spring reached a point equal to 85 per cent of the peak output of April, 1920, and with the automobile manufacturers turning out new machines at a rate surpassing all previous records, the prospects for the tire industry in Akron are very encouraging.

According to figures published by the National Automobile Chamber of Commerce, there were 10,448,632 automobiles in the United States at the beginning of 1922, which was an increase of 13 per cent over the previous year. If the growth during 1922 equals this, there will be more than 11,000,000 machines in the country requiring tires made in Akron, which indicates plenty of work for Akron workingmen.

New building is increasing steadily, as shown by the records of building permits issued. Postoffice receipts show a healthy increase, and receipts in April were exceeded by only two months during the city's history. Bank deposits are also showing a steady increase.

Akron is taking a decided stride forward in securing several new industries of diversified character during 1922. Three of these when their plants are completed will represent an outlay of more than a million dollars, and will give employment to about five hundred persons. These successful first steps toward diversifying Akron's industries augur well for the industrial future of this city.

NOTE—We are indebted to Mr. Vincent S. Stevens, Secretary of the Akron Chamber of Commerce, for the foregoing.

Akron's population at this time being of more than usual interest, we have taken special care to count all individual names appearing in the alphabetical list and as a result find a total of 85,705. Multiplying this number by 2 to cover women and children not included in the count, would indicate a present population of 171,410, this we believe is a very conservative estimate.

By a similar count and estimate, Kenmore shows a population of 10,328, Barberton, 16,724, and Cuyahoga Falls, 9,494.

Respectfully,

THE BURCH DIRECTORY CO

Akron's Great Tire

The Talk of the Tire Town

Everybody in Akron knows General Tires. They know that what you get out of them has crowned them—Akron's great tire.

Taxi drivers there will tell you how many miles their General Cords have made—show them to you—brag about them. And almost everybody who isn't under obligation to some other tire factory uses General Tires—because they know the men who make them, the materials that go into them and the miles that you can get out of them.

Buy the Tire that's the Talk of the Tire Town

Get a General today—and let it roll alongside of any other tire in the world. It will repay you in extra mileage—longer service—more satisfaction.

THE GENERAL CORD TIRE
—goes a long way to make friends

Built in Akron, Ohio, by
The General Tire and Rubber Co.

WALL PAPER
ALWAYS THE LATEST DESIGNS.
The D-P-W Co. 73 East Mill St.
One page of text is provided. The page contains a directory of names and addresses, likely for a town or city. Each name is associated with a street and a designation such as "Berry ave intersects," "Bellow intersects," etc. The text is dense with names and addresses, indicating a typical listing of residents or businesses. However, the content is not presented in a clear tabular format, making it challenging to extract specific information without interpreting the text. Based on the structure, it's a community directory or a similar type document.

**NOTE:**
- The image contains a list of streets with addresses and descriptions, typical of a telephone directory or real estate advertisement from the mid-20th century.
- The text is formatted in a table with streets, addresses, and descriptions.
- The text is printed in a typewriter font, characteristic of the era.
- The document includes a mix of local names and business names.

If only he knew where to look

Lots of folks hunt the hard way for information that is **right at hand** if they knew where to look.

They buy with part knowledge of those who sell, they guess at addresses, they waste postage and misspell names.

**all of which might be avoided by learning how to use the scientific compilation of information in the City Directory.**

---

**H. P. MORAN CO.** Reinforced Concrete, Steel, Brick and Stone Construction. **GENERAL OFFICES, TERMINAL BUILDING**
POSTAL INFORMATION

Stamp Window open from 7 a. m to 8 p. m.

POSTAGE RATES

Domestic Matter—First class, letters and all written or sealed matter two cents per ounce or fraction thereof. Postal cards one cent. Second class, entered newspapers and magazines, one cent for four ounces or fraction thereof. Third-class, books, photographs and printed matter generally, one cent for each two ounces or fraction thereof. Parcel Post includes Books and all Merchandise with rates according to zone. All Parcel Post matter should be brought to Postoffice or Station.

Registry Fee—Ten (10) cents.

To insure proper rating of doubtful mail matter, it should be brought to the Postoffice.

Foreign Rates—Postal Union Countries only. Letters and all sealed matter, five cents for first ounce or fraction thereof, and three cents for each additional ounce (except in England, Ireland, Scotland, Wales, and France if by boat direct) where the rate is two cents same as domestic). Newspapers, periodicals and photographs, unsealed, one cent for each two ounces or fraction thereof.

Advising your correspondents of your street address, and request that they so direct your mail. This insures prompt delivery and prevents mistakes.

By placing your name and address on the upper left-hand corner of the envelope you will receive the letter back if it is not delivered.

Report all irregularities in the handling of your mail to the Postoffice.

Postoffice open for dispatch of mail day and night.

Pasteurizing Has a Meaning

IT INSURES THE HEALTHFULNESS OF YOUR MILK AND UNLESS PROPERLY DONE IS VALUELESS

This daily recording thermometer record shows the time and temperature at which our milk was pasteurized.

It insures you that the milk is PASTEURIZED, that is, HEATED TO 140 DEGREES AND HELD 30 MINUTES.

With The

Bessler Movable Stairway

Made in Akron

Eliminate that garret stairway and put that upper hall space into use. It can easily be done, with a saving in lumber and labor, by installing a Bessler. Simplicity itself to operate and install, neat in appearance and strongly built. A practical and satisfactory modern space-saver. You will be interested in our catalog and price list. Write today for them.

- Takes up no space in floor below
- Costs less than a stationary stairway
- So simple and easy that a child can operate it
- Never in the way when not in use
- Folds up into the ceiling

Manufacturer of
Acid-Proof Chemical Stoneware
Acid Brick, Special Ware and Pipe
Office and Factory: Kelly Avenue
EAST AKRON, OHIO

Bell Phone Main 1987
Ohio State Phone 2591

FIGURE 299
ACID-PROOF FLANGED AND THREADED STRAIGHT-WAY COCK
With apron to prevent possible acid from reaching hands or face, should key become loose. Tested to 60 pounds.

We make every description of Acid-Proof Chemical Stoneware, Standard or Special

Our clay and method of manufacture is NOT the same as used by others in our district.

THIS TRADE-MARK stamped into the body of chemical stoneware means: that it is guaranteed acid-proof through the entire body, tough and durable and not brittle or fragile like common ware,—that it is free from checks, blisters or other defects and does not leak or sweat and must be perfectly satisfactory to you.

Our Ware Is Not Dependent Upon a Glaze, Enamel or Veneer

IT IS THE BODY ITSELF
Withstands the action of Acids, Alkalis and Chemicals, strong or weak, hot or cold.

Could not make Clothes whiter, cleaner or sweeter than those washed by our patented

**ELECTRIC PROCESS**

Without the use of Chloride of Lime or other ruinous bleaches

The water in which the clothes are washed is charged with an electric current, thus supplying the very elements used by nature when you hang your clothes in the outdoor sunshine.

The only Laundry in Summit County using this remarkable process, enabling it to positively guarantee sterilization, deodorization, colors not to run or fade, and the life of the linen to be greatly prolonged.

Call and let us demonstrate the merits of this wonderful fabric-saving discovery to you personally, or if this is not convenient, phone

**BELL MAIN 2865 OHIO STATE 1414**

and we will see that one of our representatives calls and explains its merits to you.

**THE NATIONAL LAUNDRY AND CLEANING CO.**

**60-62 WILLARD ST.**

We Guarantee Collars to Last a Year if Laundered Exclusively By Us

ACCOUNTANTS CHARLES SCHNACKEL & CO.
Established 1910  305 Metropolitan Bldg.
The practice of Chiropractic consists of the adjustment, with the hands, of the movable segments of the spinal column to normal position for the purpose of releasing the imprisoned impulse.

Chiropractic is SAFE because it is scientific. The properly trained Chiropractor knows exactly what he is doing and why he is doing it. An adjustment is always followed by NORMAL action of the nerves. Nature never makes a mistake.

Hours: 9 A.M. to 8 P.M. except Sundays and Holidays

the Buying Public
Goes!

Why the City Directory first? It saves time. The ads are classified. Your customers find you instantly. It's the logical place for them to go because it's an index to the city.

Beat Them To It--Advertise in the NEW CITY DIRECTORY

Thousands upon thousands will consult it for a whole year. The price of space is so small, compared with the valuable publicity you get, that you can't afford to be left out.

THE ELECTRIC SHOP CO. HUGHES RANGES
Terminal Building
If only he knew where to look

Lots of folks hunt the hard way for information that is right at hand if they knew where to look.

They buy with part knowledge of those who sell; they guess at addresses, they waste postage and misspell names

* * * all of which might be avoided by learning how to use the scientific compilation of information in the City Directory.
