A woman in a black coat and hat stands in front of a large window, looking out at the cityscape. The sky is clear and blue, with a few clouds scattered in the distance. The building behind her is ornate, with intricate architectural details and a grand entrance. In the background, a river flows peacefully, bordered by trees and greenery. The overall atmosphere is serene and peaceful.

The text on the page is a directory listing. It includes names and addresses of various individuals such as "Miller" and "Pierce". The format is typical for a phone directory, listing people's names, addresses, and possibly other information such as their profession or the type of business they are associated with. The page seems to be part of a larger directory, as indicated by the presence of a phone number "6163" in the top right corner, suggesting it is from an issue of the "Jefferson Gazette" for Akron 1921.

If, only he knew where to look.

Lots of folks 'hunt' the hard way for information that is right at hand if they knew where to look.

They buy with part knowledge of those who sell; they guess at addresses; they waste postage and misspell names.

* * * all of which might be avoided by learning how to use the scientific compilation of information in the City Directory.

Facts About Directory Advertising

It Is the Only Advertising that is not "hit or miss" from the fact that it can always be found when wanted.

It Is the Only Advertising medium that has no competition and is used by practically the whole community and is not used for kindling purposes a short time after issued—nor is it read once and thrown away.

It Is the Only Advertising which is on the job 365 days in a year and, in many establishments, 24 hours a day.

It Is the Only Advertising medium where you can advertise your goods with absolute certainty that the public can find this information when desired.

It Is the Only Advertising medium where you would look and expect to find what you want when you want it.

It Is the Only Advertising medium that represents every business house in the City, and to omit your sign therefrom is like neglecting to place your sign in front of your place of business.

The City Directory Represents Conditions Today—History Tomorrow

The men who direct the affairs of the city and up-to-date business institutions recognize the fact that the City Directory tells the story of the city's life and keeps it before the world as no other publication does or can do.

It is the logical means of publicity in advertising the city, its industrial, commercial and social advantages.

Patronize the City Directory and you automatically boost your own business.

The sign over your door is a mighty good investment, but just consider how much "mightier" investment the Directory offers you.
