Advertising Akron

Copies of the Akron City Directory are placed in Directory Libraries throughout the United States and Canada. The publishers are doing everything possible to broadcast Akron as a most desirable business and residential city. This is made possible by the liberal co-operation of the public spirited citizens as reflected by the fine display of advertisements.
THIS DIRECTORY IS THE PRODUCT OF
THE BURCH DIRECTORY CO.
A Member Of The
ASSOCIATION OF NORTH AMERICAN DIRECTORY PUBLISHERS

Thus assuring patrons the ultimate service that skill and care can produce in the way of City Directories, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standard of Practice," adopted at the inception of the Association in 1898, and strictly adhered to since that date, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledge himself:

1. To consider, first, the interest of the user of the Directory.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found and the Directory be made to serve its fullest use as a business and social reference and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

**Note:** The document contains a table listing addresses and telephone numbers for various businesses and individuals related to commercial printing and lithography, along with some addresses associated with die cut advertising specialties. The table includes names, titles, and phone numbers, each entry providing a glimpse into the services offered by these establishments. The document appears to be a directory or a list compiled for the purposes of advertising and business listing. The entries are organized in a clear and structured manner, facilitating easy reference to the services provided by each entity. The presence of typical business contact information suggests that this is a resource for businesses requiring printing and related services, possibly for advertising, stationery, and other print media needs.
