SOMETHING
To Think About
For the Advertiser and the Consumer

Do you realize that an advertisement in the City Directory is a testimonial to the permanency and stability of the Advertiser?

A City Directory Advertiser is the logical one to patronize. This permanency and stability is your assurance of a square deal in buying merchandise or having work done.

"FLY-BY-NIGHT," "FIRE SALE," "GET-RICH-QUICK," and other temporary concerns, rarely appear, or advertise, in the City Directory.

It is a noteworthy fact that 90% of the City Directory Advertising is renewed from issue to issue.

There are dominant factors connected with City Directory Advertising: first, the low cost and staple publicity it affords, locally and nationally; second, this co-operation and patronage is wholly responsible for the very existence of the City Directory.

The modern City Directory is a wonderful asset, credit and benefit to the community it represents. In turn, that which benefits the community, automatically benefits the Advertiser.

Judicious Advertising is always a good investment, and City Directory Advertising, cost considered, renders larger returns than any other medium. In connection with the complete Classified Business section, it is doubly effective.

While we have offered you "Something to Think About," it is also Something Worth Remembering.

THE BURCH DIRECTORY COMPANY
AKRON, OHIO
Established 1868
Akron is the Rubber Capital of the World. It is the hub of the globe-girdling rubber empires and their vast networks of retail outlets.

Akron-made products are to be found wherever wheels turn. Aside from thousands of rubber products, Akron area plants turn out matches, automobile rims, clay products, salt, dies, molds, batteries and chemicals.

Akron, with 50 motor freight terminals, is the center of the trucking industry. Here is the world's largest fishing tackle factory, the site of the All-American Soap Box Derby and the home of the dirigible and blimp.

The Akron Chamber of Commerce is guiding Akron's progress.

OF THE
AKRON CITY DIRECTORY

This section of the Directory contains the Advertisements and Professional cards of the more progressive business men, classified according to their respective line of business or profession. In brief, they are the men who are making business and history for Akron. Patronize them and you will be sure of a square deal.

We have on file in our Directory Library every issue of the Akron City Directory, beginning with the 1868 edition, down to the current issue. These volumes contain a wealth of information concerning the people who were listed in the Directory during the past 82 years. Persons listed in the earlier Directories are now only memories, but their listings in the Directory remain the same as when they were here in person.

These rare volumes, as well as hundreds of current Directories of other cities, are available for public reference, without cost,—just a part of our service.

KNIGHT-WARE PIPE AND FITTINGS

This quality chemical stoneware is not just surface resistant but is physically tough and corrosion proof throughout its entire body. It resists all acids and alkalies, hot or cold in any concentration.*

Knight-Ware Pipe is available in a variety of standard fittings and can be installed by any competent plumber. Where special sizes are needed, they can be made at relatively low cost because no expensive molds are required.

Send for Bulletin No. 5 W

*Excepting HI and hot caustics

KNIGHT-WARE LABORATORY EQUIPMENT

Knight-Ware Laboratory Equipment has all the properties of Knight-Ware Pipe as given above. It is available in a wide range of standard and special designs including:

- Sinks
- Table Troughs
- Acid Lines
- Fume Ducts
- Tanks
- Kettles
- Sumps
- Suction Filters
- Jars
- Towers
- Valves
- Basket Saddles

Write for Bulletin No. 5 W

PYROFLEX CONSTRUCTIONS

The term Pyroflex Construction refers to complete functional units designed by Knight engineers and can be built to handle almost any type of corrosive service. Besides Pyroflex, which is a Knight developed thermoplastic sheet lining, these units may incorporate ceramics, carbons, glass, graphite, plastics, lead or any other material best suited to the individual situation. Knight will design and build complete units or line large equipment in your plant.

Send for Bulletin No. 2 W

Acid Proof CEMENTS

Knight has developed a line of special cements to meet almost any corrosive condition. PERMANITE Cement used with acid proof brick provides a floor or tank lining that resists acids, alkalies, solvents, oil, greases, water and steam.

Send for Bulletin No. 4 W

Other types include:
- KNIGHT NO. 2—Silicate Base
- KNIGHTROBOND—Sulphur Resin Base
- KABO—Phenolic Base

Write for complete information

Acid Proof COATINGS

Pyroflex Lacquer protects tanks and metal work with a tough surface coating it withstands severe corrosive conditions and may be applied by brush or spray to metal, concrete, wood or painted surfaces. Available in colors. Shipped in 1, 5 and 50-gallon containers.

Send for Bulletin No. 3 W

NATIONAL ADVERTISERS
Are coming more and more to realize that newspaper or magazine publicity
brings better returns when coupled up with an advertisement for the local
agent in the city directory. Put "See the city directory for our local agent"
on all your advertising and see to it that he is listed under all the classifica-
tions of your line

LOCAL ADVERTISERS
Will improve their sales of nationally advertised products if they can induce
their supply house to advertise in the above manner

THIS DIRECTORY IS A PRODUCT OF
THE BURCH DIRECTORY CO.
A Member of The
Association of North American Directory Publishers

Thus assuring patrons the ultimate service that skill and care can produce in the way of City Directories, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following “Standards of Practice,” adopted at the inception of the Association in 1898, and strictly adhered to since that date, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledge himself:

1. To consider, first, the interest of the user of the Directory.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found and the Directory be made to serve its fullest use as a business and social reference and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

When You Want to Know:

—where a person lives.
—what his occupation is.
—who lives at a certain number on a street.
—where a street is located.
—the correct spelling of a name.
—the officers of a corporation.
—the partners in a firm.
—the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.

—you can quickly find the answer in the City Directory.
Foreword

This Street Guide and Householders Directory gives the names of all streets, arranged alphabetically, showing the location of each geographically as well as the relation to other streets. Intersecting streets should not be confused with the street to which you are referring. The house numbers are shown numerically, even numbers appearing on the south and west sides of streets and odd numbers on the east and north sides, followed by the name of principal occupant, head of family, company or firm, as the case may be. In the absence of house numbers, a dash (—) is used.

The symbol (*) following a householder's name indicates ownership; however, the publisher cannot and does not guarantee the correctness of this information.

Telephone numbers appear at right wherever there is phone service.

Market Street, East and West, is the dividing line of all streets running north and south.

Howard Street, North and South, and Main Street south from Bowery Street, are the dividing lines of all streets running east and west.

The present system of house numbering allows 10 feet to each number. For example, if the house number is 136, it indicates a distance of 1,360 feet from the main dividing street.

We have endeavored to make this service as accurate and comprehensive as possible. However, errors will creep in regardless of best efforts and greatest vigilance.

CUYAHOGA FALLS, OHIO
"City of Homes"

Settled in 1812 as Manchester, changed to its present name in 1839 after the Cuyahoga River, which passes through the city, and has a fall of 240 feet within the city limits.
Located in the heart of the middle west industrial district with a population of over 500,000 in an area of thirty miles in radius.

Form of Government - Federal Plan of Municipal Government, City Bldg, 2310 2d St.
Population - 35,000 (1955 estimate)
Area - 9 square miles,
Altitude - 1109 feet,

Parks - Six parks, approximately 100 acres
Industry - More than 50 industries employing approximately 7500 persons. Types of industry include rubber, wood products, plastics, machine tool, wire drawing machinery, staybolts, laboratory and surgical tubing and chemicals.
Assessed Valuation - $70,500,000 (1954)
Banks and Building and Loans - Four.
Telephones in Service - Approximately 13,000.
Gas Meters in Operation - Approximately 10,000.
Churches - 23 congregations of all denominations.

Education - One public high school, one junior high school, seven grade schools and two parochial grade schools.

Hospitals - State Mental Receiving Hospital and Green Cross General Hospital.
Building and Construction - $8,571,000 covering 5100 permits (1954).
Library - Taylor Memorial Public Library contains 33,500 volumes.
Transportation - Cuyahoga Falls is served by two railroads (Penn., and B. & O.), and two bus companies.

City Statistics - Municipally operated Light, Water, Sewage, Cemetery, Incinerator and Garbage Pick-up 66 miles of hard-surfaced streets, 95 miles of sewers. Municipal Waterworks has a capacity of 3,500,000 gallons daily with 109 miles of mains. The incinerator has a daily capacity of 80 tons.
Cost of Incinerator - $140,000. Municipal Swimming and Diving Pool - 324 feet long and 75 feet wide, has a capacity of one and one-half million gallons.

Confession of City Administration

Thus assuring patrons the ultimate service that skill and care can produce in the way of City Directories, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following “Standards of Practice,” adopted at the inception of the Association in 1898, and strictly adhered to since that date, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledge himself:

1. To consider, first, the interest of the user of the Directory.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found and the Directory be made to serve its fullest use as a business and social reference and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.
