54 Years of Service

Akron is the Rubber Capital of the World. It is the hub of the globe-girdling rubber empires and their vast networks of retail outlets.

Akron-made products are to be found wherever wheels turn. Aside from thousands of rubber products, Akron area plants turn out matches, automobile rims, clay products, plastics, salt, dies, molds, batteries, chemicals, and aerospace equipment, parts and components.

Akron, with 100 motor freight terminals, is the center of the trucking industry. Here is the world's largest fishing tackle factory, the site of the All-American Soap Box Derby, the American Golf Classic and the home of the dirigible and blimp.

The Akron Chamber of Commerce is guiding Akron's progress.

"THE RUBBER CAPITAL OF THE WORLD"

Akron, a northern Ohio city of 238,000 persons, has gained fame through the years for outstanding leadership and contributions in many varied fields.

The city is probably best known as the "rubber capital of the world." It is the hub of the globe-girdling rubber companies whose vast networks of fabrication plants and retail outlets play such an important role in our economy. This vital Akron-born industry alone represents more than four billion dollars annually in production.

GIANT TIRE MACHINERY

Rubber has been the big employer in Akron for nearly half a century. The city is the headquarters for administration, sales, financing, distribution and research for B F Goodrich Co., Goodyear Tire & Rubber Co, Firestone Tire & Rubber Co., General Tire & Rubber Co., and Mohawk Rubber Co. Seiberling Rubber Co. is located at nearby Barberville. In addition there are a number of smaller specialty rubber companies in Akron.
Goodyear Aircraft Corporation's impressive Airdock, completed in 1929, was erected to house the rigid airships, USS Macon and USS Akron, each of which was 785 feet long and had a gas capacity of 6,500,000 cubic feet.

The Dock is approximately a semi-paraboloid shape, well described as a half of a silkworm's cocoon, cut in two the long way. It is 1175 feet long, 325 feet wide and 211 feet high. Its 364,000 square feet of floor area makes it the largest single uninterrupted space yet built.

In a comparative sense, the Dock's height is equal to a 22 story building, it is the largest structure in the world without interior support, ten football games could be played simultaneously under its roof. It is so big, in fact, that the engines on the airships can be "run up" inside the structure without discomfort to workmen or danger of carbon monoxide poisoning.

In effectively launching and docking huge rigid airships, the Dock had to be designed to reduce air-current interference to a minimum. It was with this thought in mind that Dr Karl Arnstein, GAC's retired Vice President in Charge of Engineering, specified the building as a semi-paraboloid structure.

The most unique feature of the Dock is probably its identical spherical doors with their supporting trucks and operating mechanism, with individual power plants separately housed at each end of the building. The doors are two-piece and shaped somewhat like one-quarter of an orange peel. Each of the four sections weighs 600 tons. The doors are fastened at the top by huge hollow-forged pins 17 inches in diameter and six feet long. The doors rest on 40 wheels set radially on curved standard railroad track. Time of opening or closing is approximately five minutes.

**Diversified Industry**

Akron is also well known as the birthplace of the trucking industry. The enterprising rubber producers, sensing an important new market for their tires, were among the first industries to ship by truck. Today Akron is headquarters for nearly 100 motor freight companies with more than 15,000 trucks and trailers.

Also located here are two of the largest concerns in their respective fields - the Saalfield Publishing Co., publisher of children's books, and the Enterprise Manufacturing Co., makers of world-famous Pfueger fishing tackle.

Metal working is another important industry. The units of this industry range from small tool and die shops to big factories producing machinery used in the rubber industry and other similar types of business.

Two big new industries recently located in northern Summit County a few miles from Akron. One is the new Chrysler Corporation stamping plant at Twinsburg and the other is the Euclid Division of General Motors Corporation, which manufactures road machinery, an industry expected to boom with the opening of the huge new federal highway program.
The diversified list of other products made in Akron area plants includes chemicals and plastics, salt, cereals, clay products, matches, paint and varnish, paper and boxboard, porcelain products such as glove forms and insulators, aircraft parts, heating and air-conditioning equipment, storm windows and doors, mattresses and upholstered furniture, concrete blocks, electric motors, wire drawing machinery, marine equipment, molds for rubber and plastic manufacturers, rubber toys, fabricated and wrought iron steel products, tools, both hand and power, and wood turnings.

Aside from its industrial importance, Akron is known as the host city for the All American Soap Box Derby and such famous golf events as the Rubber City Open, the new American Golf Classic, the 1960 PGA Tournament, and the 1962 World Series of Golf.

Since 1934, with the exception of four war years, the ALL-AMERICAN SOAP BOX DERBY has carved a significant place for itself as a vital youth event in America. Each year, Akron, Ohio, the home of the ALL-AMERICAN, rolls out the royal welcome mat for more than 180 local champions from all over the United States and many foreign countries for this "greatest amateur racing event in the world."

The entire business district is lavishly decorated in Derby colors and banners, and Main Street becomes ALL-AMERICAN BOULEVARD for the festivities during "Derby Week." To make certain each "Champ" is identified to the tens of thousands of visitors that pour into Akron, giant placards along the Boulevard feature the name of each boy and the city or country he represents.

The Akron Chamber of Commerce, its committee, merchants and the entire community join together to make every Derby Boy feel that he is a true champion, for each entrant in the ALL-AMERICAN has earned the honor of competing for national recognition and over $15,000 in scholarships and other prizes by winning the grand championship in his local derby "back home."

The 180 Champs competing at Akron actually are representing some 50,000 boys who experienced the thrill of creating a racer with their own skill and ingenuity and entering in competition with other fine boys like themselves.
AKRON UNIVERSITY STUDENT CENTER

As a municipal institution serving a world famed industrial area, the University of Akron strives to provide an excellent academic education for the college-age youth of the community. In addition, the University provides facilities for adult education and many civic, cultural and educational community events.

Buchtel College, named for its most generous financial supporter, John R. Buchtel, became the core of the University of Akron in 1913 when all assets of the college were accepted by the City as a foundation upon which the new University would grow.

Today, students can earn bachelors' degrees in the Colleges of Liberal Arts, Engineering, Education, Business Administration and Law.

Masters' degrees are offered in all the colleges, through the Graduate Division. The Doctor of Philosophy degree is offered in Chemistry by the Buchtel College of Liberal Arts.

AKRON YMCA

The Akron YMCA serves more than 16,000 boy members in the Central Building and seven Youth Branches. The program features gym and swim classes, boys' clubs, hobbies and crafts, citizenship training, informal education, teen-age parties, and special family activities.
One of the finest examples of English Tudor Revival architecture in the United States, Stan Hywet Hall was built by Frank A. Seiberling, founder of the Goodyear and Seiberling rubber companies. It is a memorial to England's great Elizabethan period, a monument to America's period of great wealth, a collection of art treasures envied by museums and a place where history has happened.

The City of Cuyahoga Falls is blessed with an immense natural beauty and the people have capitalized on this beauty as part of the charm of both the modest and more elaborate homes. Interesting variety in style is seen as you drive throughout the community. The architectural types range from colonial to modern homes of steel and glass.
CUYAHOGA FALLS FIRE DEPARTMENT

Cuyahoga Falls has one of the most modern, completely equipped fire departments of any city of comparable size in the State of Ohio.

Because of the department's fine fire prevention program, the City enjoys an excellent fire safety record. Only three major fires have occurred in the past 30 years.

CUYAHOGA FALLS CITY BUILDING

As the county seat for Summit County (population 510,000) Akron is located in the market center of America, with 100,000 people within a radius of 500 miles having 75 per cent of the nation's buying power.

For prospective new industries and business ventures, Akron offers excellent plant sites, water supply, skilled labor, transportation facilities, accessibility of raw materials, abundant electric power at low rates, and a Chamber of Commerce working full time with business, industry and government to promote Akron's great potential.

For additional information write the Akron Chamber of Commerce, 137 South Main St., Akron 8, Ohio.

DOMESTIC POSTAGE RATES

FIRST CLASS
Letters, etc., 5 cents for each ounce or fraction thereof, in addition to 8 cents each Air Parcel Post. Airmail Post Card, 5 cents each Air Parcel Post.

Post Cards 4 cents each within prescribed sizes.
Business Reply Cards, Ordinary 6 cents each.
Business Reply Envelopes, Ordinary or Air Mail, 3 cents to add in regular postage.

SECOND CLASS
Newspapers and Periodicals (Transpulsed rate) 2 cents for the first 2 ounces and 1 cent for each additional ounce or fourth class rate whichever is lower.

THIRD CLASS
Miscellaneous 3 cents for first two ounces and 1 cent per ounce for each additional ounce up to but not including 16 ounces.
Books and catalogues, 24 printed pages or more (including covers), seeds and bulbs, 3 cents for first 2 ounces and 1 cent per ounce up to but not including 16 ounces.
Books, Bulbs, Not less than either 20 pounds or 200 separably addressed pieces (identical) at P.O. for permit.
Miscellaneous 16 cents for each pound or fraction but not less than 20 cents per piece.
Books, Seeds, Bulbs 10 cents each for each pound or fraction, but not less than 20 cents per piece. Must be registered by states and offices. Material mailed at these rates can be registered, insured, or sent C.O.D.

FOURTH CLASS—PARCEL POST
Includes printed matter, merchandise and all other matter weighing 16 ounces or more, except first and second class matter.

(a) Parcels mailed at a first-class post office for delivery at another first-class post office (in continental United States only):
(1) Limit of weight - 40 pounds, local, first, and second classes, 20 pounds, third through eighth classes.
(2) Limit of size - 72 inches length and girth combined.

Exceptions - Parcels mailed on or addressed for delivery on a rural or airmail route, or parcels containing baby food, nursery stock, agricultural commodities (not including manufactured products thereof), or books, subject to limits of size and weight prescribed in (b) below.

(b) Parcels mailed at, or addressed for delivery to, any second-, third- or fourth-class post office, or maled to or from any Airmail, Air or airmail Post Office, or to or from any Territory or possession of the United States, including the Canal Zone and Trust Territory of the Pacific Islands:
(1) Limit of weight - 70 pounds.
(2) Limit of size - 100 inches length and girth combined.

In measuring a parcel the greatest distance in a straight line between the ends (but not around the parcel) is taken as the length, while the distance around the parcel at its thickest part is taken as its girth.

FOREIGN POSTAGE RATES

Letters: 4 cents for each ounce or fraction thereof, to the following countries: Canada and Mexico.
Post Card: Single 3 cents, Double, 6 cents.

TO ALL OTHER FOREIGN COUNTRIES:
Letters 11 cents for 1st ounce, 7 cents each additional ounce.
Post cards Single 7 cents, Double 14 cents.

Printed matter including Newspapers to all foreign countries except Canada and Mexico, 5 cents for first two ounces and 3 cents for each additional two ounces.

Parcel Rates and conditions vary to different countries, call at Post Office.
HOW MANY CHANGES IN A YEAR?

Out of every 100 People as listed in the last Directory

16% to 18% Move away or die

17% to 19% "New" people move into town or reach listing age.

26% to 29% More change their addresses or their jobs or some other vital fact that affects their listing.

Making a total of 59% to 66% of the People listed who have new information in some particular which can be surely found only in the NEW DIRECTORY

Note: These figures are from repeated checks in numerous cities and do not vary 5% in any one year.

THAT IS WHY NEW DIRECTORIES MUST BE PUBLISHED EVERY YEAR.
SPECIAL
CLASSIFIED
ADVERTISING DEPARTMENT
AND
BUYERS' GUIDE
OF THE
AKRON CITY DIRECTORY
1962-63

This section of the Directory contains the Advertisements and Professional cards of the more progressive business men, classified according to their respective line of business or profession. In brief, they are the men who are making business and history for Akron. Patronize them and you will be sure of a square deal.

We have on file in our Directory Library every issue of the Akron City Directory, beginning with the 1868 edition, down to the current issue. These volumes contain a wealth of information concerning the people who were listed in the Directory during the past 82 years. Persons listed in the earlier Directories are now only memories, but their listings in the Directory remain the same as when they were here in person.
These rare volumes, as well as hundreds of current Directories of other cities, are available for public reference, without cost,—just a part of our service.

KNIGHT-WARE PIPE AND FITTINGS

This quality chemical stoneware is not just surface resistant but is physically tough and corrosion proof throughout its entire body. It resists all acids and alkalis, hot or cold in any concentration.*

Knight-Ware Pipe is available in a variety of standard fittings and can be installed by any competent plumber. Where special sizes are needed, they can be made at relatively low cost because no expensive molds are required. Send for Bulletin No. 5* Excepting HF and hot caustics

KNIGHT-WARE LABORATORY EQUIPMENT

Knight-Ware Laboratory equipment has all the properties of Knight-Ware Pipe as given above. It is available in a wide range of standard and special designs including:
- Sinks
- Table Troughs
- Acid Lines
- Fume Ducts
- Tanks
- Kettles
- Sumps
- Suction Filters
- Jars
- Towers
- Valves
- Berl Saddles

Write for Bulletin No. 5

Acid Proof MORTARS

Knight has developed a line of special cements to meet almost any corrosive condition. PERMANITE cement used with acid proof brick provides a floor or tank lining that resists acids, alkalis, solvents, oil, grease, water and steam. Send for Bulletin No. 4 Other types include:
- KNIGHT NO. 2—Silicate Base
- KNIGHTROBOND—Sulphur Resin Base
- KABO—Phenolic Base

Write for complete information

Acid Proof COATINGS

Pyroflex Lacquer protects tanks and metal work with a tough surface coating. It withstands severe corrosive conditions and may be applied by brush or spray. Metal, concrete, wood or painted surfaces. Available in colors. Shipped in 1, 5 and 50-gallon containers. Send for Bulletin No. 3

PYROFLEX CONSTRUCTIONS

The term Pyroflex Construction refers to complete functional units designed by Knight engineers which are built to handle almost any type of corrosive service. Besides Pyroflex, which is a Knight developed thermo plastic sheet lining, these units may incorporate ceramics, carbon, glass, graphite, plastics, lead or any other material best suited to the individual situation. Knight will design and build complete units or line large equipment in your plant. Send for Bulletin No. 2

THIS CHURCH
Is an independent assembly of believers in the Lord Jesus Christ. We believe in the Verbal Inspiration of the Scriptures, Eternal Triune God Father, Son and Holy Spirit. His bodily resurrection, His priesthood for the believer and His personal, imminent and pre-millennial return to earth, the eternal glory for the saved and eternal punishment for the unsaved.

The Sign Over Your Door

Is a good thing, isn’t it? You would not think of doing business without it.

But it is only seen by those who pass your way.

If you could put a sign where everyone could see it would it interest you?

THE CITY DIRECTORY

Is where people look for you when they want to do business. You should make it easy for them to find you, by putting such information as a buyer wants, in the Directory properly indexed under all headings where he might look for you.

To be properly registered costs less than to be left out
ASK THE MAN WHO MOWS!

The only complete line of production rotational molding equipment

The Akron Presform Mold Company is the only company with a complete line of production molding equipment, so as to provide just the right capacity machine for your production. Machinery so versatile that one operator can mold up to 2000 items per hour from any powdered, granulated or liquid molding compound. The operator need not be a technician, because all the raw materials are scientifically prepared, by the nation’s foremost companies. Any hollow article can be molded in the molding machine to a finished product in one operation. Our complete line of production rotational molding equipment assures the correct machine, dispensing unit and multiple cavity molds assembled onto our patented spider to satisfy your requirements.

The single spindle machine, shown at right, is available with a 15”, 25”, or 75” diameter molding area.

The multiple spindle machine, shown at left, is available with a 25” or 75” diameter molding area.

THE WORLD'S LARGEST TWIN TIRE PRESS

Once again McNeil has broken the "size barrier". This latest pioneering design achievement is the 63½ Bag-O-Matic now in production. Weighing 57 tons, this amazing press can handle fabric truck tires up to 12 00 x 24 or 14 00 x 20 or the new special tire for replacement of duals and also preformed wire tires. Each of its 2 giant molds can exert a 950,000 lb squeeze (a 750,000 lb model is also available). The machine offers automatic vertical design front loading or manual front loading, automatic rear unloading, and automatic one or two cycle post cure inflation.

SPECIFICATIONS:
956-63½ x 25, 400 lb Internal Pressure, 60" Dome I D x 25 Daylight, 17'-4" Max Open Height, 14'-6½" Width, 13'-6½" Max Open Depth.
750-63½ x 25, Same specifications except with 300 lb Internal Pressure.

The text on the page appears to be a directory, likely from a rural area, with sections listing names and addresses. The text is too small to read clearly, but it seems to be a compilation of information, possibly for a local directory or a similar publication. The text appears to be in a format common for such directories, with sections listed numerically and alphabetically.
