FOREWORD

This selective index of Ohio news and opinion, compiled from the New Final Edition of the Summit Beacon, is intended as a key or guide and not as a digest. However, the information given will often be found adequate without reference to the newspaper or to the microfilm copy.

The Akron Beacon Journal Index is sponsored by the Akron Public Library and the State Library of Ohio under a Library Services and Construction Act grant. It is a continuation of the project originated by the U.S. Works Progress Administration. Microfilm newspaper copies were supplied by the Akron Public Library.

Since the New York Times Index covers national and foreign news, such material has been omitted from this index. Other omissions are as follows:

Advertisements

Announcements of routine meetings of social, fraternal, and minor political organizations; announcements pertaining to sports events.

Commercial and promotional publicity on topics such as real estate, resorts, and automobiles.

Features or columns dealing with trivia, recapitulations of news, or non-news educational topics.

Lists which appear regularly such as vital statistics, incorporations, radio programs, time tables, theater schedules, stock and bond quotations, and prices.

Non-news items relating to material such as recipes, menus, household hints, budgets, care of pets, care of babies, personal adornment, patterns, fashions, advice to the lovers, gardening, games, and hobbies.

Poetry and fiction

Reprints

Reviews of baroque and radio performances.

Society personalities and minor comings and goings.

Touring maps and information.

HOW TO USE THE AKRON BEACON JOURNAL INDEX

Index entries are arranged alphabetically under subjects and proper names. In most instances material has been filed under specific rather than under general headings. Examples: Baseball news under BASEBALL and not under Sports; news concerning the New York Central Railroad is under that name and not under RAILROADS OR TRANSPORTATION. With few exceptions names of organizations appear under the key word of the name. Examples: MOPOC MONUMENT CORPORATION, ASH OF SOCIAL WORK, WARD, CONF. OF LABOR, OHIO FED. OF. Exceptions: Companies and some well-established names. Some headings are subdivided by geographical and topical subheads. Examples: FRANCE - Politics and Government; SCHOOL - Ohio - Textbooks.

The proper name of subject heading is followed by a brief descriptive sub-entry and by a reference line. Related sub-entries are paragraphed singly in chronological order. With related sub-entries continuity is maintained by arranging the times chronologically within the same paragraph.

In a few other instances, where material is entered only under general headings (e.g., MOVIES, PICTURES, DIES, DEATHS, MARRIAGES), the sub-entries are alphabetically.

The reference line indicates date, page, and column. Example: N 1, 9-2, meaning November 1, page 9, column 2.

When the location of an event is not expressly designated or otherwise indicated under subject, the place of action is local.

The following are examples of index entries for a person, an organization, and a subject, with reference lines:

SHERMAN, R
Injured when auto overturns, S 26, 1-4

FISH AND GAME ASSN., PORTAGE
Elects officers; S S Myers speaks, Ap 29, 27-2

LAW

Wanted as having power to abolish war, poverty, and charity, 11r, D 28, 4-5

Cross references are used to direct the reader to the proper headings or to additional material under related headings. Examples:
