FOREWORD

This selective index of Ohio news and opinion, compiled from the Home Final Edition of the Akron Daily Beacon, is intended as a key or guide and not as a digest or summary. However, the information given will often be found adequate without reference to the newspaper or to the microfilm copy.

Since The New York Times Index covers national and foreign news, such material has been omitted from this index. Other omissions are as follows:

Advertisements
Announcements of routine meetings of social, fraternal, and minor political organizations; announcements pertaining to sports events.
Commercial and promotional publicity on topics such as real estate, resorts, and automobiles.
Features or columns dealing with trivia, recapitulations of news, or non-news educational topics.
Lists which appear regularly such as vital statistics, incorporations, radio programs, time tables, theater schedules, stock and bond quotations, and prizes.
Non-news items relating to material such as recipes, menus, household-hints, budgets, care of pets, care of hobbies, personal advancement, patterns, fashions, advice to the lovelorn, gardening, games, and hobbies.

Poetry and fiction
Reprints
Reviews of burlesque and radio performances.
Society personals and minor comings and goings.
Touring maps and information.

HOW TO USE THE ACRON BEACON JOURNAL INDEX

Index entries are arranged alphabetically under subjects and proper names. In most instances material has been filed under specific rather than general headings. Examples: Baseball is under BASEBALL and not under SPORTS; news concerning the New York Central Railroad is under that name and not under RAILROADS or TRANSPORTATION, with few exceptions names of organizations appear under the key word of the name. Examples: MCNO WOMEN'S CLUBS IN OHIO, ASK OF; SOCIAL WORK, INTL. CONF OF; LABOR, OHIO FIN OF. Exceptions: Chambers of commerce, companies, and some well-established names. Whenever necessary, headings are subdivided by geographical and topical subheads. Examples: FRANCE - Politics and government; SCHOOLS - Ohio - Textbooks.

The proper name or subject heading is followed by a brief descriptive sub-entry and by a reference line. The following arrangement of sub-entries under headings is generally observed: Unrelated sub-entries are paragraphed singly in chronological order. In the case of related sub-entries continuity is maintained by arranging the items chronologically within the same paragraph. In a few other instances, where material is entered only under general headings (e.g., BOOKS, MOTION PICTURES, BIRTHS, DEATHS, MARRIAGES), the sub-entries are arranged alphabetically.

The reference line indicates date, page, and column. Example: N 1, 9/2; meaning November 1, page 9, column 2.

When the location of an event is not expressly designated or otherwise indicated under subject, the place of action is local.

HOW TO USE THE ACRON BEACON JOURNAL INDEX

The following are examples of index entries for a person, an organization, and a subject, with reference lines:
