How to Use the Akron Beacon Journal Index

Index entries are arranged alphabetically under subjects and proper names. In most instances material has been filed under specific rather than under general headings. Examples: Baseball news is under BASEBALL and not under SPORTS; news is under BASEBALL and not under SPORTS; news concerning the New York Central Railroad is under that name and not under RAILROADS or TRANSPORTATION.

With few exceptions names of organizations appear under the key word of the name. Examples: NERD THROUGH THE-CLUBS IN OHIO, ASSN OF; SOCIAL WORK, INTL CONF OF; LABOR, OHIO FED OF. Exceptions: chambers of commerce, companies, and some well-established names. Wherever necessary, headings are subdivided by geographical and topical subheads. Examples: FRANCE - Politics and Government; PUBLIC - Ohio - Textbooks.

The proper name or subject heading is followed by a brief descriptive sub-entry and by a reference line. The following arrangement of sub-entries under headings is generally observed: Undivided sub-entries are paraphrased singly in chronological order. In the case of related sub-entries continuity is maintained by arranging the items chronologically within the same paragraph. In a few other instances, where material is entered only under general headings (e.g., BOOKS, MOTION PICTURES, TRAVELING, DEPARTURES, WEDNESDAY), the sub-entries are arranged alphabetically.

The reference line indicates date, page, and column, Example: M 1, R 2; meaning November 1, page 9, column 2.

When the location of an event is not expressly designated or otherwise indicated under subject, the place of action is local.
