This is a stone house is the Greek Revival style. The front and side walls are of dressed sandstone ashlar, but the rear wall is uncoursed field stone. The monumental entrance consists of an architrave frame, two half-round Doric columns separating the sidelights from the doorway, and a massive lintel which is slightly gabled to suggest the pediment. The lintel cornice has akroteria. The first floor facade windows have a similar architrave treatment. The north and south end elevations do not have the cornice so characteristic of the "Western Reserve" house, but a blind lunette is set in the gable. There is a large square chimney on each end The walls are twenty inches thick, and the interior plastering is directly on the stonework. The partition walls are made of boards nailed to studs and plastered. To the rear of the house a small enclosed utility porch was added at a later date. The structural condition of the house is somewhat deteriorated, and although moving has been contemplated, it would probably have to be done by dismantling and reassembling.

STATEMENT OF SIGNIFICANCE

This house has been published in many of the standard Ohio works, it was recorded in the H.A.B.S. survey in 1936, and Campen refers to it as the finest Western Reserve stone house "east of the Cuyahoga." (Presumably its only rival is the Hurst house near Avon.) Kidney's comment is worth mentioning: the "solemn" house is "somewhat gloomy, as such buildings tend to be . . . the Grecian effect is not consistent; the architecture . . . tends to disappear as one rounds the corner." But the Herrick house is one of the few examples of building done by someone who wanted and was able to afford permanence and solidity.

That someone was Jonathan E. Herrick, who arrived in the Twinsburg area soon after 1828. In 1845 he erected the stone house, "one of the best in the township." Herrick lived in the house for 44 years, then moved to Akron with his daughter until his death in 1898. He was for several years one of the township trustees, and known as a "prominent citizen," having served as chairman of the committee which erected the soldiers' monument on the Twinsburg Public Square.

Mrs. Anna Lee Simonds c/o Mrs. Oscar Ross 537 Lake Street Kenty,Ohio 44240

Dear Mrs. Simonds:

I am pleased to inform you that the Herrick, Jonathan, House, 8327 Darrow Road, Twinsburg Township, has been entered in the National Register of Historic Places by the National Park Sergice, United States Department of the Interior.

The nomination was made in connection with a state plan to identify and document prehistoric and historic places in Ohio which qualify for National Register status under provisions of the National Historic Preservation Act of 1966. All nominations are approved by the Ohio Historic Bite Preservation Advisory Board.

Enclosed is a brochure explaining the purposes and goals of the National Register of Historic Places.

Congratulations for recognizing the importance of, and the need for the careful and sensible preservation of Ohio's landmarks. Your farsightedness will surely serve as an example to other individuals and organisations in this state.

Sincerely,

Judith Kitchen Architectural Historian and Administrator Historic Preservation Office

July 3, 1981

Dave:

The Jonathan Herrick House, Twinsburg (SUM), is being dismantled by the Historical Society because the site is being developed as an industrial park, and moved to the Hale Farm and Village. By the end of July its structural integrity will no longer support its eligiblity for the National Register, and it should be removed. The dismantled house will be stored at the Hale Farm for later reconstruction in the pioneer village.

Gretchen:

What portion of staff time or expenses for this project, if any, may be counted toward the matching for the preservation office?

Sincerely,

Eric Johannesen
