Appreciate and Patronize their

CITY DIRECTORY
DO YOU REALIZE that an Advertisement in the City Directory is a Testimonial to the Permanency and Stability of the Advertiser?

A City Directory Advertiser is the logical one to patronize. This permanency and stability is your assurance of a square deal in buying merchandise or having work done.

"FLY-BY-NIGHT," "FIRE SALE," "GET-RICH-QUICK," and other temporary concerns, rarely appear, or advertise, in the City Directory.

It is a noteworthy fact that 90% of the City Directory Advertising is renewed from issue to issue.

There are dominant factors connected with City Directory Advertising: first, the low cost and staple publicity it affords, locally and nationally; second, this co-operation and patronage is wholly responsible for the very existence of the City Directory.

The modern City Directory is a wonderful asset, credit and benefit to the community it represents. In turn, that which benefits the community, automatically benefits the Advertiser.

Judicious Advertising is always a good investment, and City Directory Advertising, cost considered, renders larger returns than any other medium. In connection with the complete Classified Business section, it is doubly effective.

While we have offered you "Something to Think About," it is also Something Worth Remembering.

THE BURCH DIRECTORY CO.
This Publication
Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain, to study public needs and make Directories to supply them, to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

This section of the Directory contains the Advertisements and Professional cards of the more progressive business men, classified according to their respective line of business or profession. In brief, they are the men who are making business and history for Akron. Patronize them and you will be sure of a square deal.

We have on file in our Directory Library every issue of the Akron City Directory, beginning with the 1868 edition, down to the current issue. These volumes contain a wealth of information concerning the people who were listed in the Directory during the past 66 years.

Persons listed in the earlier Directories are now only memories, but their listings in the Directory remain the same as when they were here in person.

These rare volumes, as well as hundreds of current Directories of other cities, are available for public reference, without cost,—just a part of our service.

LOCAL ADVERTISERS
Will improve their sales of nationally advertised products if they can induce their supply house to advertise in the above manner.

Shows truthful illustrations of all the principal fresh and salt water game fish with reliable information about habits, where found, what they feed on, food value, heaviest fish of each kind on record caught and Pfleuger's recommendations for tackle to use in catching.

Every fisherman should have a copy. Even the old timer of long experience will find something new, vital and helpful. This is a book of real practical, helpful information about fish and fishing. Pocket Catalog No 154

Filled With "Tips" From Old-Timers

For the Beginner as well as the Expert. The new pocket edition not only describes and illustrates (many in natural colors) a piece of tackle for every kind of fishing, but gives many helpful hints from experienced fishermen on the best ways of using each.

You need Pfleuger's Pocket Catalog right now. Write us and we will send your free copy at once.

The Last Word in COMFORT and SAFETY

THE General Streamline Jumbo tire adds the final thrill to 1934 motoring. Designed and built exclusively by General, it's the only tire that matches the smart, modern streamline design of the new cars—and the one tire that brings the added safety modern speeds demand. Super-soft, with only 12 to 15 lbs. of air, Streamline Jumbos end the fear of skidding and blowouts—and make riding indescribably smooth.

- A ride will show you the big difference. Come in for FREE demonstration and details of our easy change-over plan for old and new cars.

SAFE... SILENT... LONGER LASTING

In this new tread, General has discarded all precedent. No other tires are like them. They are silent because the simple design gets rid of the old fashioned spots and knobs that wore fast and caused noise. They are far more skid-safe because they provide real gripping action in every direction. The non-skid lasts much longer because it is silent and doesn't pound and wear off like ordinary tires.

Lots of folks hunt the hard way for information that is right at hand if they knew where to look.

They buy with part knowledge of those who sell; they guess at addresses; they waste postage and misspell names

* * * all of which might be avoided by learning how to use the scientific compilation of information in the City Directory.
