If only he knew where to look

Lots of folks hunt the hard way for information that is right at hand if they knew where to look.

They buy with part knowledge of those who sell; they guess at addresses; they waste postage and misspell names

* * * all of which might be avoided by learning how to use the scientific compilation of information in the City Directory.
To Think About

For the Advertiser and the Consumer

Do you realize that an advertisement in the City Directory is a testimonial to the permanency and stability of the Advertiser?

A City Directory Advertiser is the logical one to patronize. This permanency and stability is your assurance of a square deal in buying merchandise or having work done.

It is a noteworthy fact that 90% of the City Directory Advertising is renewed from issue to issue.

There are dominant factors connected with City Directory Advertising: first, the low cost and staple publicity it affords, locally and nationally; second, this co-operation and patronage is wholly responsible for the very existence of the City Directory.

The modern City Directory is a wonderful asset, credit and benefit to the community it represents. In turn, that which benefits the community, automatically benefits the Advertiser.

Judicious Advertising is always a good investment, and City Directory Advertising, cost considered, renders larger returns than any other medium. In connection with the complete Classified Business section, it is doubly effective.

While we have offered you "Something to Think About," it is also Something Worth Remembering.

THE BURCH DIRECTORY CO.
This Publication
Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1896, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself.

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain, to study public needs and make Directories to supply them, to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

Association of North American Directory Publishers

***

An Ideal Address . . .
First-Central Tower

The 28-story First-Central Tower is the largest, newest, most up-to-date office building in Akron. This fact enables us to give tenants the utmost in comfort, convenience and service.

The building stands at Akron’s busiest corner, where the most clients and customers are. An address in it is assurance that your location is universally known, and easily reached. And eight elevators take customers to you without delay.

All offices are light, airy and as commodious as desired. Those on the higher floors are free from the noises of the street, an advantage desired by many. For further information, please telephone, write or visit the Building Manager at Suite 400.
