The City Directory

Represents Conditions
Today—

History
Tomorrow

The men who direct the affairs of the city and up-to-date business institutions recognize the fact that the City Directory tells the story of the city's life and keeps it before the world as no other publication does or can do.

It is the logical means of publicity in advertising the city, its industrial, commercial and social advantages.

Patronize the City Directory and you automatically boost your own business.

The sign over your door is a mighty good investment, but just consider how much "mightier" investment the Directory offers you.

THINK IT OVER!
Have You Noticed The Names In Black Face Type?

The Names

Appearing in BLACK FACE type in this Directory represent those who are public spirited and appreciate the fact that LOCAL ENTERPRISE is the power behind the City Directory, in brief, they are the Citizens who are making business and history—for your City. The publishers are honored in making them better known to the public.

Patronize Them!
SPECIAL
CLASSIFIED

ADVERTISING DEPARTMENT
AND

BUYERS' GUIDE
OF THE

AKRON CITY DIRECTORY
1939-40

This section of the Directory contains the Advertisements and Professional cards of the more progressive business men, classified according to their respective line of business or profession. In brief, they are the men who are making business and history for Akron. Patronize them and you will be sure of a square deal.

We have on file in our Directory Library every issue of the Akron City Directory, beginning with the 1868 edition, down to the current issue. These volumes contain a wealth of information concerning the people who were listed in the Directory during the past 70 years. Persons listed in the earlier Directories are now only memories, but their listings in the Directory remain the same as when they were here in person.

These rare volumes, as well as hundreds of current Directories of other cities, are available for public reference, without cost,—just a part of our service.

You're miles ahead with GENERAL

A TIRE FOR EVERY CAR AND TRUCK

For long mileage, quick-stopping safety and easy riding comfort equip with the top-quality tire of the industry.

No matter what you drive or how much mileage you need ... top-quality throughout the General line will provide you with the right tire for your greatest economy and satisfaction.

The complete General line includes many types of tires at a wide range of prices. Look at any of the tire ads, then come to us for a bigger bargain on a better tire.

GENERAL TIRES

C. S. NORRIS & SONS, INC., Bowery at Thornton Sts.
No other tire has this 'HEAT-VENT' feature

Safer!
BECAUSE ITS
"HEAT-VENTED"

Get the 3 way protection of the

SEIBERLING
SAFETY TIRE

1 Patented vents remove the greatest threat to tire safety and tire mileage. The friction heat that piles up inside an ordinary tire, traveling at high speeds, can't escape because rubber is a poor conductor of heat. This causes most blowouts. In the new Seiberling Safety Tire this dangerous internal heat is forced out through rows of patented "Heat-Vents" that go down into the very vitals of the tire. And because it runs cooler this tire lasts longer—and is safer.

2 A Saw-tooth tread that grips the pavement—regardless of the weather. It's as silent as black velvet while your foot is on the accelerator. But a thousand "Saw-tooth" claws grip the pavement the instant you step on the brakes. Claws that dig in—and hold—until you are safely stopped. And this Seiberling Safety Tire holds its grip after months of service, because the "Saw-teeth" are just as sharp at the base of the tread, as they are at the top.

3 "Saf-flex"—a new fatigue resisting cord that absorbs terrific punishment. Seiberling's new "Saf-flex" possesses twice the elastic strength of ordinary cord—and gives the body of the tire an amazing resistance to bruising, and road shock. That means much greater safety and thousands of extra miles of service. And the unusual springiness and cushioning effect of "Saf-flex" cord makes this new Safety tire so resilient that driving seems almost like floating.

Lots of folks hunt the hard way for information that is right at hand if they knew where to look. They buy with part knowledge of those who sell, they guess at addresses; they waste postage and misspell names. * * * all of which might be avoided by learning how to use the scientific compilation of information in the City Directory.
