About City Directory Circulation

THE true value of advertising circulation is circulation consulted.

TO be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

TO be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR every thousand directories sold there will be an average of three and one-half daily consultations for each book for three hundred and five days, therefore—

\[ 1000 \times 3\frac{1}{2} \times 305 = 1,067,500 \]

The City Directory

Represents Conditions Today—

History Tomorrow

The men who direct the affairs of the city and up-to-date business institutions recognize the fact that the City Directory tells the story of the city’s life and keeps it before the world as no other publication does or can do.

It is the logical means of publicity in advertising the city, its industrial, commercial and social advantages.

Patronize the City Directory and you automatically boost your own business.

The sign over your door is a mighty good investment, but just consider how much “mightier” investment the Directory offers you.

THINK IT OVER!
What this symbol means to you

Accuracy
Publishing production supervised by trusted experienced professional Directory specialists

Quality
A tradition of pride in producing the best publication possible, always with a view to improvement.

Standardization
Cooperation of publishers toward a uniformity of contents, formatting and arrangement of departments making for a maximum of convenience and service to the user with a watchful eye kept on the changing times and public needs and with a continual exchange of ideas.

Dependability
A trade-mark representing a reputation for reliability and responsibility established prior to the turn of the century and maintained throughout the years.

*Association of North American Directory Publishers*
STOP OR GO!

Red means Stop—Green means Go. Your ad in the Directory is the Green signal to Go—and the results will be a Green light all along the way.
